Date

24 July 2024

The Chairman  
Chilaw Plantations Limited.

Report of the Auditor General on the Financial Statements and Other Legal and Regulatory Requirements of the Chilaw Plantations Limited for the year ended 31 December 2023 in terms of Section 12 of the National Audit Act, No. 19 of 2018.

## 1. Financial Statements

### 1.1 Opinion

The audit of the financial statements of the Chilaw Plantations Limited (“Company”) for the year ended 31 December 2023 comprising the statement of financial position as at 31 December 2023 and the statement of comprehensive income, statement of changes in equity and cash flow statement for the year then ended, and notes to the financial statements, including material accounting policy information, was carried out under my direction in pursuance of provisions in Article 154(1) of the Constitution of the Democratic Socialist Republic of Sri Lanka read in conjunction with provisions of the National Audit Act No. 19 of 2018 and In the Companies Act No. 07 of 2007. My report to Parliament in pursuance of provisions in Article 154 (6) of the Constitution will be tabled in due course.

In my opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2023 and of its financial performance and its cash flows for the year then ended in accordance with Sri Lanka Accounting Standards

### 1.2 Basis for Opinion

I conducted my audit in accordance with Sri Lanka Auditing Standards (SLAuSs). My responsibilities, under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of my report. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

### 1.3 Other information included in the Company’s 2023 Annual Report.

The other information comprises the information included in the Company's 2023 Annual Report but does not include the financial statements and my auditor's report thereon, which is expected to be made available to me after the date of this auditor's report. Management is responsible for the other information.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the Company's 2023 Annual Report, if I conclude that there are material misstatements therein, I am required to communicate that matter to those charged with governance for correction. If further material uncorrected misstatements are existed those will be included in my report to Parliament in pursuance of provisions in Article 154 (6) of the Constitution that will be tabled in due course.

#### **1.4 Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

As per Section 16(1) of the National Audit Act No. 19 of 2018, the Company is required to maintain proper books and records of all its income, expenditure, assets and liabilities, to enable annual and periodic financial statements to be prepared of the Company.

#### **1.5 Auditor's Responsibilities for the Audit of the Financial Statements**

## 1.5 Auditor's Responsibilities for the Audit of the Financial Statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Sri Lanka Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

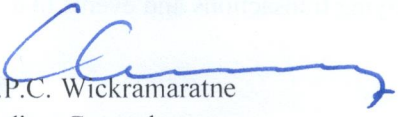

As part of an audit in accordance with Sri Lanka Auditing Standards, I exercise professional judgment and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

## 2. Report on Other Legal and Regulatory Requirements

- 2.1 National Audit Act, No. 19 of 2018 and Companies Act, No. 7 of 2007 include specific provisions for following requirements.
- 2.1.1 I have obtained all the information and explanation that required for the audit and as far as appears from my examination, proper accounting records have been kept by the Company as per the requirement of section 163 (2) of the Companies Act, No. 7 of 2007 and section 12 (a) of the National Audit Act, No. 19 of 2018.
- 2.1.2 The financial statements presented is consistent with the preceding year as per the requirement of section 6 (1) (d) (iii) of the National Audit Act, No. 19 of 2018.
- 2.1.3 The financial statements presented includes all the recommendations made by me in the previous year as per the requirement of section 6 (1) (d) (iv) of the National Audit Act, No. 19 of 2018.
- 2.2 Based on the procedures performed and evidence obtained were limited to matters that are material, nothing has come to my attention;
- 2.2.1 to state that any member of the governing body of the Company has any direct or indirect interest in any contract entered into by the Company which are out of the normal cause of business as per the requirement of section 12 (d) of the National Audit Act, No. 19 of 2018.
- 2.2.2 to state that the Company has not complied with any applicable written law, general and special directions issued by the governing body of the Company as per the requirement of section 12 (f) of the National Audit Act, No. 19 of 2018.
- 2.2.3 to state that the Company has not performed according to its powers, functions and duties as per the requirement of section 12 (g) of the National Audit Act, No. 19 of 2018.
- 2.2.4 to state that the resources of the Company had not been procured and utilized economically, efficiently and effectively within the time frames and in compliance with the applicable laws as per the requirement of section 12 (h) of the National Audit Act, No. 19 of 2018.

Chilaw

March 21, 2024

## **1 CORPORATE INFORMATION**

### **1.1 Reporting Entity**

#### **1.1.1 Domicile and Legal Form**

Chilaw Plantations Limited (the Company) is a limited liability Company incorporated and domiciled in Sri Lanka, under the Companies Act No. 17 of 1982 (The Company re-registered under the companies Act No 07 of 2007) in terms of the provisions of the Conversion of Public Corporations or Government Own Business Undertaking into Public Companies Act No. 23 of 1987.

The registered office of the Company is located at No. 165, Puttalam Road, Chilaw and the Plantations are situated in the planting districts of Puttalam, Kurunegala and Gampaha.

#### **1.1.2 Principal Activities and Nature of Operations**

During the year, the principal activities of the Company were cultivation of coconut, manufacture of copra and sale of green nuts, copra.

#### **1.1.3 Parent enterprise and Ultimate parent Enterprise**

The company's parent undertaking is the Government of Sri Lanka

### **1.2 Date of Authorization for Issue**

The Financial Statements of Chilaw Plantations Ltd. for the year ended December 31, 2023 was authorized for issue in accordance with a resolution of the Board of Directors on 21<sup>st</sup> March 2024.

## **2 BASIS OF PREPARATION**

### **2.1 Statement of compliance**

The Financial Statements have been prepared in accordance with Sri Lanka Accounting and Auditing Standards Act No. 15 of 1995, which requires compliance with Sri Lanka Accounting Standards (SLFRS/LKAS) promulgated by The Institute of Chartered Accountants of Sri Lanka (CASL), and with the requirements of the Companies Act No. 07 of 2007.

### **2.2 Basis of Measurement**

These Financial Statements have been prepared in accordance with the historical cost convention other than leased assets of JEDB/SLSPC estates, which have been revalued as described in Note 04, 05 and 06 to the Financial Statements. Where appropriate, specific policies are explained in the succeeding notes and no adjustments have been made for inflationary factors in the Financial Statements.

### **2.3 Functional and Presentation Currency**

The Financial Statements are presented in Sri Lanka Rupees (Rs.), which is the Company's functional and presentation currency. All financial information presented in Sri Lankan Rupees has been given to the nearest rupee.

### **2.4 Use of Estimates and Judgments**

The preparation of the financial statements in conformity with SLFRS/LKAS requires Management to make judgments, estimates and assumptions that influence the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Judgments and estimates are based on historical experience and other factors, including expectations that are believed to be reasonable under the circumstances. Hence, actual experience and results may differ from these judgments and estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period and any future periods affected.

### **2.5 Going Concern**

The Management of the company has made an assessment of the company's ability to continue as a going concern and is satisfied that the company has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the company's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

### **2.6 Comparative Information**

The accounting policies have been consistently applied by the company and, are consistent with those used in the previous year unless otherwise stated and previous year's figures and phrases have been rearranged wherever necessary to conform to the current year's presentation.

### **2.7 Events occurring after the Reporting date**

All material Events occurring after the Reporting date have been considered and where appropriate adjustments to or disclosures have been made in the Financial Statements.

## **3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **3.1 Assets and Bases of their Valuation**

Assets classified as current assets in the Statement of Financial Position are cash and those which are expected to realize in cash, during the normal operating cycle of the Company's business, or within one year from the

reporting date, whichever is shorter. Assets other than current assets are those, which the Company intends to hold beyond a period of one year from the reporting date.

### 3.1.1 Property, Plant & Equipment

#### 3.1.1.1 Recognition and Measurement

Property, plant and equipment are recognized if it is probable that future economic benefits associated with the asset will flow to the Company and the cost of the asset can be reliably measured.

Items of Property, Plant & Equipment are measured at cost (or at valuation in the case of Leasehold Right to Bare Land), less accumulated depreciation and accumulated impairment losses, if any.

##### (a) Owned Assets

The cost of Property, Plant & Equipment includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other cost directly attributable to bringing the asset to a working condition for its intended use. Purchased software that is integral to the functionality of the related equipment is capitalized as apart of that equipment.

When significant parts of Property, Plant & Equipment are required to be replaced at intervals, the entity recognizes such parts as individual assets with specific useful lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the Statement of comprehensive income as incurred.

Capital work-in-progress is transferred to the respective asset accounts at the time of first utilization or at the time the asset is commissioned.

The carrying-values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

Where motor vehicles are subsequently revalued, the entire class of such assets is revalued at fair value on the date of revaluation on 31<sup>st</sup> December 2020.

Any revaluation surplus is recognized in other comprehensive income and accumulated in equity in the asset revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognized in the income statement, in which case the increase is recognized in the income statement. A revaluation deficit is recognized in the income statement, except to the extent that it offsets an existing surplus on the same asset recognized in the asset revaluation reserve.

Accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Upon disposal, any revaluation reserve relating to the particular asset being sold is transferred to retained earnings.

As per the valuation report of the Department of Government Valuation, Revaluation of the motor vehicles as at 31<sup>st</sup> December 2020 as follows.

Description	Net Carrying Value as at 31.12.2020 Rs.	Revalued Amount As at 31.12.2020	Revaluation Reserves Rs.
Motor Vehicle (Revalued)	4,987,021.00	103,875,000.00	98,887,979.00

Net book value of the above revalued assets as at 31<sup>st</sup> December 2023 are shown under the note no. 8 to the financial statements.

However below mentioned vehicles have not been revalued by the Department of Government Valuation due to the repairs being undertaken at the date of revaluation on 31<sup>st</sup> December 2020. Therefore those motor vehicles are measured at cost less accumulated depreciation.

**Details of motor vehicles measured at cost less accumulated depreciation.**

Vehicle No	Category	Cost Rs.	Accumulated Depreciation	Net book value As at 31/12/2020
Sri 6018	Hand Tractor	41,500.00	41,499.00	1/=
NW SC 1607	Hand Tractor	104,000.00	103,999.00	1/=
36 Sri 5418	Tractor	1,661,995.70	1,304,777.00	357,218.70
36 Sri 3033	Tractor	467,739.46	467,737.46	2/=
NWRV 0245	Tractor Trailer	152,375.00	152,374.00	1/=
NW UZ 3922	Motor Cycle	148,925.00	148,924.00	1/=
NW UZ 3655	Motor Cycle	148,925.00	148,924.00	1/=

**(b) Leased Assets**

Assets obtained under the finance lease, (which effectively transfer substantial risks and benefits incidental to ownership of the leased item) are capitalized at an amount equal to the lower of their fair value and the present value of minimum lease payments at the inception and depreciated/amortized over the period the Company is expected to benefit from the use of the leased assets.

The corresponding principal amount payable to the lessor is shown as a liability. The interest element of the rental obligation applicable to each financial year is charged to the Statement of Comprehensive Income over the period of the lease so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The cost of improvements to the leased property is capitalized and depreciated over the unexpired period of the lease or the estimated useful lives of the improvements whichever is shorter.

**3.1.1.2 Subsequent Cost**

The cost of replacing part of an item of Property, Plant & Equipment is recognized in the carrying amount of the item, if it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The carrying amount of those parts that are replaced is de-recognized in accordance with the de-recognition policy given below. The costs of the day-to-day servicing of Property, Plant & Equipment are recognized in profit or loss as incurred.

**3.1.1.3 De-recognition**

The carrying amount of an item of Property, Plant & Equipment is de-recognized on disposal or when no future economic benefits are expected from its use or disposal. Gains or losses on de-recognition are recognized in profit or loss and gains are not classified as revenue.

**3.1.1.4 Depreciation and Amortization****(a) Depreciation**

Depreciation is recognized in Statement of Comprehensive Income using a straight-line method on cost or valuation over the estimated useful economic lives of each part of an item of Property, Plant & Equipment. The estimated useful lives for the current and comparative periods are as follows:

	No. of Years	Rate (%)
Buildings	40	2.50
Plants & Machinery	15	6.67
Furniture & Fittings	10	10.00
Motor Vehicles	05	20.00
Equipment	08	12.50
Permanent Land development	30	3.33
Fencing	03	33.33
Water Supply	20	5.00

Depreciation of an asset begins when it is available for use and ceases at the earlier of the date on which the asset is classified as held for sale or is de-recognized. Depreciation methods, useful lives and residual values are reassessed at the reporting date and adjusted prospectively, if appropriate.

**(b) Amortization**

Assets held under finance leases are amortized over the shorter of the lease term and the useful lives of equivalent owned assets unless it is reasonably certain that the Company will have ownership by the end of the lease term. Lease period of land acquired from JEDB/SLSPC will be expired in the year 2045.

The leasehold rights of assets taken over from JEDB/SLSPC are amortized in equal amounts over the shorter of the remaining lease periods and the useful lives and the estimated useful lives for the current and comparative periods are as follows:

	No. of Years	Rate (%)
Leasehold right to bare Land	53	1.89
Improvements to Land	30	3.33
Other Vested Assets	30	3.33
Buildings	25	4.00
Machinery	15	6.67
Water Supply	20	5.00

**3.1.2 Biological Asset**

**3.1.2.1 Immature and Mature Plantations**

**A) Immovable Leased Bearer Biological Assets (Immature and Mature Plantations)**

In terms of the ruling of the UITF of Institute of Chartered Accountants of Sri Lanka prevailed at the time of privatization of plantation estates, Immovable Leased Bearer Biological Assets (Immature and Mature Plantations) in the JEDB/SLSPC estates under finance leases have been taken into the books of the Company retroactive with effect from 11<sup>th</sup> June 1992.

Amortization on Immovable Leased Bearer Biological Assets is recognized in Statement of Comprehensive Income on a straight-line basis over the estimated useful lives of the asset and the estimated useful life for the current and comparative periods is as follows:

	No. of Years	Rate (%)
Mature Plantations	30	3.33

**B) Improvements to Leasehold Property (Immature and Mature Plantations)**

The cost of land preparation, rehabilitation, new planting, replanting, inter-planting and fertilizing, etc., incurred between the time of planting and harvesting (when the planted area attains maturity after 8 years), are classified as immature plantations. These immature plantations are shown at direct costs plus attributable overheads. The expenditure incurred on bearer biological assets (i.e. Coconut) which comes into bearing during the year, is transferred to mature plantations.

Depreciation on Improvements to Leasehold Property is recognized in Statement of Comprehensive Income on a straight-line basis over the unexpired period of the lease or the estimated useful lives of the improvements, whichever is shorter.

The expenditure incurred on immature plantations which comes into bearing during the year, is transferred to mature plantations at the end of the year and is depreciated over their useful lives as follows.

The immature period and estimated useful life span for the current and comparative periods are as follows: (useful life span is counted after immature period)

	<b>Immature Period</b>	<b>Lifespan</b>	<b>Depreciation</b>
	<b>No. of Year</b>	<b>No. of Years</b>	<b>Rate (%)</b>
Coconut	08	50	2.00
Cashew	08	25	4.00
Dragon Fruit	03	20	5.00
Cinnamon	04	20	5.00
Pepper	06	20	5.00
Rambutan	06	20	5.00
Mango	05	20	5.00

### C) Consumable Biological Assets

Consumable timber trees are measured on initial recognition and at the end of each reporting period at its fair value less cost to sell in terms of LKAS 41. The cost is treated as approximation to fair value of young plants as the impact on biological transformation of such plants to price during this period are immaterial. The fair value of timber trees are measured using DCF method taking in to consideration the current market prices of timber, applied to expected timber content of a tree at the maturity by an independent professional valuer.

The gain or loss arising on initial recognition of Consumable Biological assets at fair value less cost to sell and from a change in fair value less cost to sell of Consumable Biological assets are included in profit or loss for the period in which it arises all other assumptions are given in Note 7.2

*The main variables in DCF model concerns.*

Variable	Comment
Currency valuation	Sri Lankan Rupees (Rs.)
Timber content	Estimate based on physical verification of girth, height and considering the growth of each species in different geographical regions.  Factor all the prevailing statutory regulations enforced for harvesting of timber coupled with forestry plan of the Company.
Economic useful life	Estimated based on the normal life span of each species by factoring the forestry plan of the Company.
Selling price	Estimated based on prevailing Sri Lankan market price. Factor all the conditions to be fulfilled in bringing the trees in to saleable condition.

Discount Rate Future cash flows are discounted at following discount rates:

- Age to harvest 5 or below years 16%
- Age to harvest 6 -15 years 17%
- Age to harvest 15 years or above 18%

### 3.1.2.2 Dairy Live Stock

Dairy Live Stocks are measured at their fair value less costs to sell. The fair value of livestock is determined in accordance with the circulars issued by the National Livestock Development Board.

### 3.1.3 Non-Current Assets Held for Sale

Non-current assets, that are expected to be recovered primarily through sale rather than through continuing use, are classified as held for sale. Immediately before classification as held for sale, the assets are measured at lower of their carrying amount and fair value less cost to sell. Non-current assets are classified as held for sale only when the sale is highly probable and the asset is available for immediate sale in its present condition.

Property, Plant & Equipment once classified as held for sale are not depreciated or amortized.

### 3.1.4 Inventories

Inventories are valued at lower of cost and estimated net realizable value, after making due allowances for obsolete and slow moving items. Net realizable value is the price at which inventories can be sold in the ordinary course of business after allowing for cost of realization and/or cost of conversion from their existing state to saleable condition.

The cost incurred in bringing inventories to its present location and conditions are accounted using the following cost formula.

<b>Input Material Consumables &amp; Spares</b>	At actual cost on FIFO basis.
<b>Growing Crop – Nurseries</b>	At the cost of direct materials, direct labour and an appropriate proportion of directly attributable overheads.
<b>Harvested Crop</b>	Agricultural produce harvested from its biological assets are measured at their fair value less cost to sell at the point of harvest. The finished and semi-finished inventories from agriculture produce are valued by adding the cost of conversion to the fair value of the agricultural produce.
<b>Live Stocks</b>	Dairy Live Stocks are measured at their fair value less costs to sell. The fair value of livestock is determined in accordance with the circulars issued by the National Livestock Development Board.

#### 3.1.4.1 Harvestable Agricultural Produce Growing on Bearer Biological Assets

In accordance with LKAS 41, company recognize agricultural produce growing on bearer plants at fair value less cost to sell. Change in the fair value of such agricultural produce recognized in profit or loss at the end of each reporting period.

For this purpose, quantities of harvestable agricultural produce ascertained based on harvesting cycle of each crop category by limiting to one harvesting cycle based on last day of the harvest in the immediately preceding cycle. Further 50% of the crop in that harvesting cycle considered for the valuation. For the valuation of the harvestable agricultural produce, the company uses the following price formulas.

Coconut – fair value less cost of picking & Transport ect.

### 3.1.5 Financial Instruments

#### 3.1.5.1 Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not an FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

### 3.1.5.2 Classification and subsequent measurement

#### 3.1.5.2.1 Financial assets

##### i) Policy applicable from 1st January 2018

On initial recognition, a financial asset is classified as measured at; amortized cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequently to their recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL;

- It is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL;

- It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- Its contractual terms give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

On the initial recognition of an equity investment that is not held for trading, the company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial assets that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

##### a) Business model assessment:

The Company makes an assessment of the objectives of the business model in which a financial asset is held as a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes;

- The stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- How the performance of the portfolio is evaluated and reported to the Company's management.
- The risks that affect the performance of the business model (and the financial assets held within the business model) and how those risks are managed;
- The frequency, volume and timing of sales of financial assets in prior periods, the reason for such sale and expectation about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for de recognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

**b) Subsequent measurement and gains and losses:**

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income and impairment are recognised in profit or loss. Any gain or loss on de recognition is recognised in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On de recognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

**3.1.5.2.2 Financial liabilities**

**i) Classification, subsequent measurement and gains and losses**

Financial liabilities are classified as measured at amortised cost of FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on de recognition is also recognised in profit or loss.

**3.1.5.3 De recognition**

**3.1.5.3.1 Financial assets**

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

**3.1.5.3.2 Financial liabilities**

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of

the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On de recognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

#### **3.1.5.4 Offsetting**

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

#### **3.1.5.5 Impairment - Financial Assets**

##### **Non-derivative financial assets**

##### **3.1.5.5.1 Financial instruments and contract assets**

Loss allowances for trade receivables are always measured at an amount equal to lifetime Expected Credit Loss (ECL).

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 365 days past due.

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
  - the financial asset is more than 180 days past due.
- Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

##### **3.1.5.5.2 Measurement of ECLs**

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

##### **3.1.5.5.3 Credit-impaired financial assets**

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is "credit impaired" when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset occurred.

Evidence that a financial asset is credit-impaired includes the following observable data;

- Significant financial difficulty of the borrower or issuer;
- A breach of contract such as a default or being more than 180 days past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- It is probable that the borrower will enter bankruptcy or other financial reorganisation; or
- The disappearance of an active market for a security because of financial difficulties.

#### **3.1.5.5.4 Presentation of allowance for ECL in the statement of financial position**

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

#### **3.1.5.5.5 Write-off**

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Company has a policy of writing off the gross carrying amount when the financial asset is 180 days past due based on historical experience of recoveries of similar assets. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

#### **3.2.1. Financial Risk Management Objectives and Policies**

The Company principal financial liabilities comprise trade and other payables, and income tax payables. The main purpose of these financial liabilities is to finance the Company operations. The Company has loans provided to state enterprises and Trade and other receivables and cash and short-term deposits that arrive directly from its operations.

Accordingly the Company has exposure to namely Credit Risk, Liquidity Risk, Currency Risk and Interest Rate Risk from its use of financial instruments.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk.

##### **3.2.1.1. Credit Risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arise principally from the Company's receivable from customers.

##### **3.2.1.2. Liquidity Risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

#### **3.2.2. Employees' Benefits**

##### **(a) Defined Contribution Plans - Provident Fund and Trust Fund**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to Provident and Trust Funds covering all employees are recognized as an expense in profit and loss in the periods during which services are rendered by employees.

The Company contributes 12% on consolidated salary of such employees to Employees' Provident Fund (EPF) and 3% on the consolidated salary of such employees to the Employees' Trust Fund.

##### **(b) Defined Benefit Plan**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The cost of defined benefit plans is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increases and staff turnover. Due to the long-term nature of these obligations, such estimates are subject to significant uncertainty. Details of the key assumptions used in the estimates are contained in Note 16.

The liability is externally funded in fixed deposits with Bank of Ceylon.

### 3.3. Deferred Income

#### Grants and Subsidies

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

Grants related to Property, Plant & Equipment are initially deferred and allocated to income on a systematic basis over the useful life of the related Property, Plant & Equipment as follows:

Assets are amortized over their useful lives or unexpired lease period, whichever is less.

Buildings	40 years
Water Supply	20 years
Motor Vehicles	05 years
Furniture and Fittings	10 years
Equipments	08 years

### 3.4. Income and Expenses

For the purpose of presentation of Income Statement, the function of expenses method is adopted, as it represents fairly the elements of the Company's performance.

#### 3.4.1. Revenue Recognition

SLFRS 15 provides a comprehensive framework for determining whether, how much and when revenue is recognized. It replaced LKAS 18 Revenue, LKAS 11 Construction Contracts and related interpretations. Under SLFRS 15, revenue is recognized when a customer obtains control of the goods or services. Determining the timing of the transfer of control – at a point in time or over time – requires judgement.

Revenue is measured based on the consideration specified in a contract with a customer. The Company recognizes revenue when or as an entity transfers control of goods and services to a customer at the amount at which the entity expects to be entitled. Revenue principally comprises of Coconut and copra sales.

As per SLFRS 15, which became effective from January 1, 2018, the Company adopts principles based five step model for revenue recognition. Accordingly, revenue is recognized only when all of the following criteria are met.

- The parties to the contract have approved the contract/s;
- The entity can identify each party's rights regarding the goods or services to be transferred;
- The entity can identify the payment terms for the goods or services to be transferred;
- The contract has commercial substance;
- It is probable that the entity will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer.

There is no significant impact on the Financial Statement of the Company resulting from the application of SLFRS 15

- a) **Gains and losses on disposal of an item of Property, Plant & Equipment** are determined by comparing the net sales proceeds with the carrying amounts of Property, Plant & Equipment and are recognized within 'other operating income' in the Income Statements.
- b) **Other Incomes** are recognized on accrual basis.

#### 3.4.2. Expenses

All expenditure incurred in the running of the business and in maintaining the Property, Plant & Equipment in a state of efficiency is charged to revenue in arriving at the profit/(loss) for the year.

### 3.5. Income Tax

Income tax expense comprises current and deferred tax. Income tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, when it is recognized in equity.

**(a) Current Tax**

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the reporting date and any adjustments to tax payable in respect of previous years.

The provision for income tax is based on the elements of income and expenditure as reported in the financial statements and computed in accordance with the provisions of the Inland Revenue Act and amendments thereto.

**(b) Deferred Tax**

Deferred tax is recognised using the Balance Sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting or taxable profit, and differences relating to investments in subsidiaries to the extent that they probably will not reverse in the foreseeable future. In addition, deferred tax is not recognised for taxable temporary differences arising on the initial recognition of goodwill. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Tax withheld on dividend income from subsidiaries and Associates is recognised as an expense in the Consolidated Income Statement at the same time as the liability to pay the related dividend is recognised.

**3.6 Changes in Accounting Policies and Disclosures**

**Amendment to LKAS 41 & 16 – Harvestable produce growing on Bearer Biological assets**

Amendments to LKAS 16- Property, plant and equipment and LKAS 41- Agriculture, require entity to recognize agricultural produce growing on bearer plants at fair value less cost to sell separately by from its bearer plants prior to harvest. After initial recognition, changes in the fair value of such agricultural produce growing on bearer plants, recognized in profit or loss at the end of each reporting period. Accordingly, the Company has applied these amendments retrospectively in the Financial Statements.

**3.7 Segment Reporting**

Segmental information is provided for the different business segments of the Company. Business segmentation has been determined based on the Geographical area of Plantations are situated. The activities of the segments are described in the Note 27 to the Financial Statements and Geographical area of Plantations are as follows,

**Group I Estates**

Chilaw Area Estate  
Palugaswewa Estate  
Thambapanni Area Estate  
Mangala Eliya Area Estate

**Group II Estates**

Bingiriya Area Estate  
Divulapitiya Area Estate  
Madampe Area Estate  
Nikawaratiya Area Estate

**CHILAW PLANTATIONS LTD****NOTES TO THE FINANCIAL STATEMENTS**

For the Year ended 31st December, 2023

**04. LEASEHOLD RIGHT TO BARE LAND OF JEDB ESTATES**

		<b>2023</b>	<b>2022</b>
		<b>Rs.</b>	<b>RS.</b>

**04.1 LEASEHOLD RIGHT TO BARE LAND OF JEDB ESTATES**

Leases have been executed for all estates for a period of 53 years. All of these leases are retroactive with effect from June 11, 1992 the date of formation of the Company. The leasehold right to the land on all these estates have been taken into the books of the Company on June 11, 1992 immediately after the formation of the Company, in terms of the ruling on this matter obtained from the Urgent Issue Task Force (UITF) of the Institute of Chartered Accountants of Sri Lanka. For this purpose the Board decided at its meeting on 08th March 1995 that this bare land would be revalued at the value established for this land by valuation specialist, D.R.Wickramasinghe just prior to the formation of the company.

These assets are taken into the Balance Sheet as at 11th June 1992 and amortized by equal amounts over a 53 year period and the unexpired period of the lease as at the Reporting date is 21.5 years.

**Note :**

These are investments in immature/mature plantations since the formation of the Company. The assets (including plantations assets) taken over by way of estate leases are set out in Notes 4, and 5 to the Financial Statements. Further investment in immature plantations taken over by way of leases are shown in this Note. When such plantations become mature, the additional investments since taken over to bring them to maturity will be moved from immature to mature under this Note. A corresponding movement from immature to mature of the investment undertaken by JEDB/SLSPC on the same plantation prior to the lease will be carried out under Note No. 5.1

The requirement of recognition of bearer biological assets at its fair value less cost to sell under LKAS 41 was superseded by the ruling issued on 02 March 2012, by The Institute of Chartered Accountants of Sri Lanka. Accordingly, the Company has elected to measure the bearer biological assets at cost using LKAS 16 - Property Plant & Equipment.

Specific borrowings have not been obtained to finance the planting expenditure. Hence, borrowing costs were not capitalized during the year under Immature Plantations (2023 - Nil)

Decrease due to harvest		(13,645,361)	(13,645,361)		(15,549,078)	(15,549,078)
<b>Balance as at 31<sup>st</sup> December</b>	<b>1,044,263.91</b>	<b>138,253,656</b>	<b>139,297,920</b>	<b>761,480</b>	<b>137,552,345</b>	<b>138,313,825</b>

Consumable Biological assets include timber trees grown in estates. The cost of immature trees is treated as approximate fair value particularly on the ground of little biological transformation has taken place and impact of the biological transformation on price is not material.

The valuation was carried by Mr. A.A.M. Fathihu, Chartered Valuation Surveyor, using Discounted Cash Flow (DCF) method. In ascertaining the fair value of timber a physical verification was carried out covering all the estates.

**Key assumption used in Valuation**

1. Based on the price list of the state timber corporation of timber logs
2. The Prices adopted are net of expenditure.
3. Discount rate - Age to harvest 5 or below years 16%  
Age to harvest 6 -15 years 17%  
Age to harvest 15 years or above 18%
4. Time period of maturity estimated at 30 years

The valuations, as presented in the external valuation models based on net present values, take into accounts the long term exploitation of the timber trees. Because of the inherent uncertainty associated with the valuation at fair value of the biological assets due to the volatility of the variables, their carrying value may differ from their realizable value. The Board of Directors retains their view that commodity markets are inherently volatile and that long term price projections are highly unpredictable

The company is exposed to the following risks relating to its timber trees.

**Regulatory and environmental risks**

The Company is subject to laws and regulations in Sri Lanka. The Company has established environmental policies and procedures aimed at compliance with local environmental and other laws. Management performs regular reviews to identify environmental risks and to ensure that the systems in place are adequate to manage those risks.

**Supply and demand risk**

The Company is exposed to risks arising from fluctuations in the price and sales volume of timber. When possible, the Company manages this risk by aligning its harvest volume to market supply and demand. Management performs regular industry trend analyses to ensure that the Company's pricing structure is in line with the market and to ensure that projected harvest volumes are consistent with the expected demand.

**Climate and other risks**

The Company's timber trees are exposed to the risk of damage from climatic changes, diseases, forest fires and other natural forces.

**7.3 Change in Fair Value of Biological Assets**

	2023 Rs.	2022 Rs.
Changes in fair value of consumable biological assets (Note 7.2)	14,346,672	18,598,138

The Company has granted temporary financial facility to the above government enterprises amounting to LKR 105 Million in the year 2010. However, the outstanding dues were not settled up to the 31 December 2014 by the respective parties and the amount with accumulated interest totaling to LKR 119,757,808/-. The Board of Directors of Chilaw Plantation Limited resolved to make a full provision for impairment for the year ended 2014.

Considering the fact that the company was unable to recover the interest income due from above state organizations, from the year 2010 to 2012, the board of directors of chilaw plantations ltd decided not to recognize the unrecoverable interest income to the accounts of chilaw plantation limited from the year 2013. Subsequently the Board of Directors of Chilaw Plantations Limited resolved to make a full provision for impairment of financial assets for the year ended 2014. However, if interest income from 2013 to 2023 is taken in to the accounts, total loan receivable balance would be Rs. 190,157,808 as details given below

Elkaduwa Plantations Ltd	41,119,452
Sri Lanka Rubber Manufacturing & Export Corporation Ltd	10,000,000

The company provides loans to employees at concessionary rate of 4% per annum. These loans are recognized on fair value at their initial recognition. The fair value of the loans given to employees are determined by discounting expected future cash flows using market rates related to the similar loans. The difference between cost and fair value of loans given to employees is recognized as prepaid staff benefits. The loans given to employees are classified as loans and receivables and subsequently measured at amortized cost. The loans given to employees are secured and interest is charged at the following rates.

	<b>Market rate</b>	<b>Concessionary rate</b>
2016	11.00%	5%
2017	14.00%	5%
2018	13.00%	5%

Applicable Tax Rate for all temporary differences other than agro farming.		30%	30%

Provision has been made for deferred tax on applicable tax rate up to 31st December 2020 under the liability method in respect of temporary difference arising from carrying amounts of assets and liabilities for financial reporting purposes. As per the policy decision taken by the government, Business profit arising from the agro farming is exempt from the income tax w.e.f 1st April 2019 (Refer Note no 24.1). Therefore the company has decided to reverse the brought forwarded deferred tax liability, relating to agro farming business, through the statement of comprehensive income for the year 2021. The effective tax rate used to calculate deferred tax liability for all temporary difference of agro processing as at 31/12/2023 is 30%.

i) Grants were received from the Plantation Human Development Trust for the development of facilities of workers such as re-roofing of Line rooms, Latrines, Water supply and Sanitation etc.

The amount spent is capitalized under relevant classification of Property, Plant & Equipment. Corresponding grant component is reflected under Deferred Grants and Subsidies and amortized over the useful life span of the asset.

ii) During the year 2021,2022 and 2023 grant were received from Coconut Research Institute for installation of irrigation system in kinyama seed garden and other capital work .

The amount is spent capitalized under relevant classification of Property, Plant and Equipment. Corresponding grant component is reflected under Deferred Grants and Subsidies and amortized over the useful life span of the asset.

**16. RETIREMENT BENEFIT OBLIGATIONS**

	<b>2023</b>	<b>2022</b>
	<b>Rs.</b>	<b>Rs.</b>
At the beginning of the year	69,807,963	81,228,433
Interest Cost	12,565,433	8,935,129
Current Services Cost	5,153,212	7,258,935
Gratuity Payments for the Year	(16,766,357)	(6,551,448)
Actuarial (Gain) / Loss	21,265,292	(21,063,086)
At the end of the Year	<u>92,025,543</u>	<u>69,807,963</u>

LKAS 19 requires the use of actuarial techniques to make a reliable estimate of the amount of retirement benefit that employees have earned in return for their service in the current and prior periods and discount that benefit using the Projected Unit Credit Method in order to determine the present value of the retirement benefit obligation and the current service cost. This requires an entity to determine how much benefit is attributable to the current and prior periods and to make estimates about demographic variables and financial variables that will influence the cost of the benefit. The following key assumptions were made in arriving at the above figure.

According to the actuarial valuation report issued by the actuarial value as at 31 December 2023 the actuarial present value of promised retirement benefits amounted to Rs.92,025,543. If the company had provided for gratuity on the basis of 14 days wages and half months salary for each completed year of service, the liability would have been Rs. 109,397,399.62. Hence, there is a contingent liability of Rs. 17,371,856.62 which would crystallise only if the company ceases to be a going concern.

The key assumptions used by Messrs Actuarial & Management Consultants (Pvt) Ltd. include the following

(i) Rate of Discount	12.5% p.a.	(ii) Rate of Salary Increase	
(iii) Retirement Age		Monthly paid Staff	10% p.a.
Monthly paid Staff	60 years	Daily Paid Staff	10% p.a.
Daily Paid Staff	60 years		
(iv) Daily Wage Rate	Rs. 740/-	(v) Staff turnover rate	6%

**NOTES TO THE FINANCIAL STATEMENTS**

The leases of the estates have been amended, with effect from 11th June 1996 to an amount substantially higher than the previous lease rental of Rs. 500/= per estate per annum. The rental payable under the revised basis is Rs. 6.508 million per year. This amount is to be inflated annually by the Gross Domestic Product (GDP) deflator, and is in the form of a contingent rental.

The contingent rental during the current year charged to the Income Statement amounted to Rs. 51,921,889,- which is based on GDP deflator of 48% (2022 - Rs. 37,917,925/- 7.9%)

The Statement of Recommended Practice (SoRP) for Right-to-use of Land on Lease was approved by the Council of the Institute of Chartered Accountants of Sri Lanka on 19 December 2012. Subsequently, the amendments to the SoRP along with the modification to the title as Statement of Alternative Treatment (SoAT) were approved by the Council on 21 August 2013. The Company has not reassessed the Right-to-use of Land because this is not a mandatory requirement. However, if the liability is reassessed according to the alternative treatment (SoAT) on the assumption that the lease rent is increased constantly by GDP deflator of 4% and discounted at a rate of 13%

Gross Liability	=	2,301,364,894
Finance Charges	=	(1,406,408,287)
Net Liability	=	<u>894,956,607</u>

The above reassessed liability is not reflected in these Financial Statements.
