Message of the Chairman

Upon a policy decision taken by the government in the year 2018, an insurance scheme for granting an insurance coverage of Rs. 40,000/- per acre, subject to the payment of insurance premium of Rs. 3,600/- per acre by the government without charging the insurance premium from farmers for six major crops, i.e. paddy, maize, big onions, potatoes, soy and chilli was operated from the Yala season of 2018. By implementing this in the year 2019 as well, the farmer community will be able to cover any damages caused to these 06 crops which will serve as an incentive for them to continue their cultivations.

Though, this crop insurance scheme administered free of charge would have an impact on the income generation of the Agricultural and Agrarian Insurance Board, being able to contribute to the primary objective of the government to secure the local farming community and stabilize their economy is considered by the Board as a corporate responsibility.

Despite such challenging circumstances, the Board was able to post a net profit of Rs. 652.3 million through agricultural insurance schemes and the operational profit earned during the year was Rs. 878.1 million. The total insurance from other income schemes was Rs. 298.6 million which signified a growth of 53% compared to year 2018.

Payment of compensation expeditiously to affected farmers is the principal function of the Board and the compulsory crop insurance indemnity liability of the Board for farmers affected by heavy rains and resultant flooding and the Fall Armyworm (Sena) caterpillar pest in key agricultural districts of the island in the year 2019 was approximately Rs. 2,155 million.

The committee of experts appointed consequent to a cabinet decision to revise the Farmers' Pension Scheme administered by the Board continues to have extensive discussions on the formulation of a more attractive insurance scheme for which contributions can be secured without being a burden to farmers' economy while ensuring a comfortable existence in the evening of their life. Accordingly, until the establishment of new schemes, pensions and death and disability benefits were duly paid to the subscribers of the existing schemes in the year 2019.

In addition, the AAIB was also able to make an outstanding contribution to the national programme of establishing an agricultural database.

Chairman
Agricultural and Agrarian Insurance Board

Agricultural and Agrarian Insurance Board

➤ **Vision ..**

To be the ideal Agricultural Insurance Institute in
South Asia by being the foremost protector of local agriculture

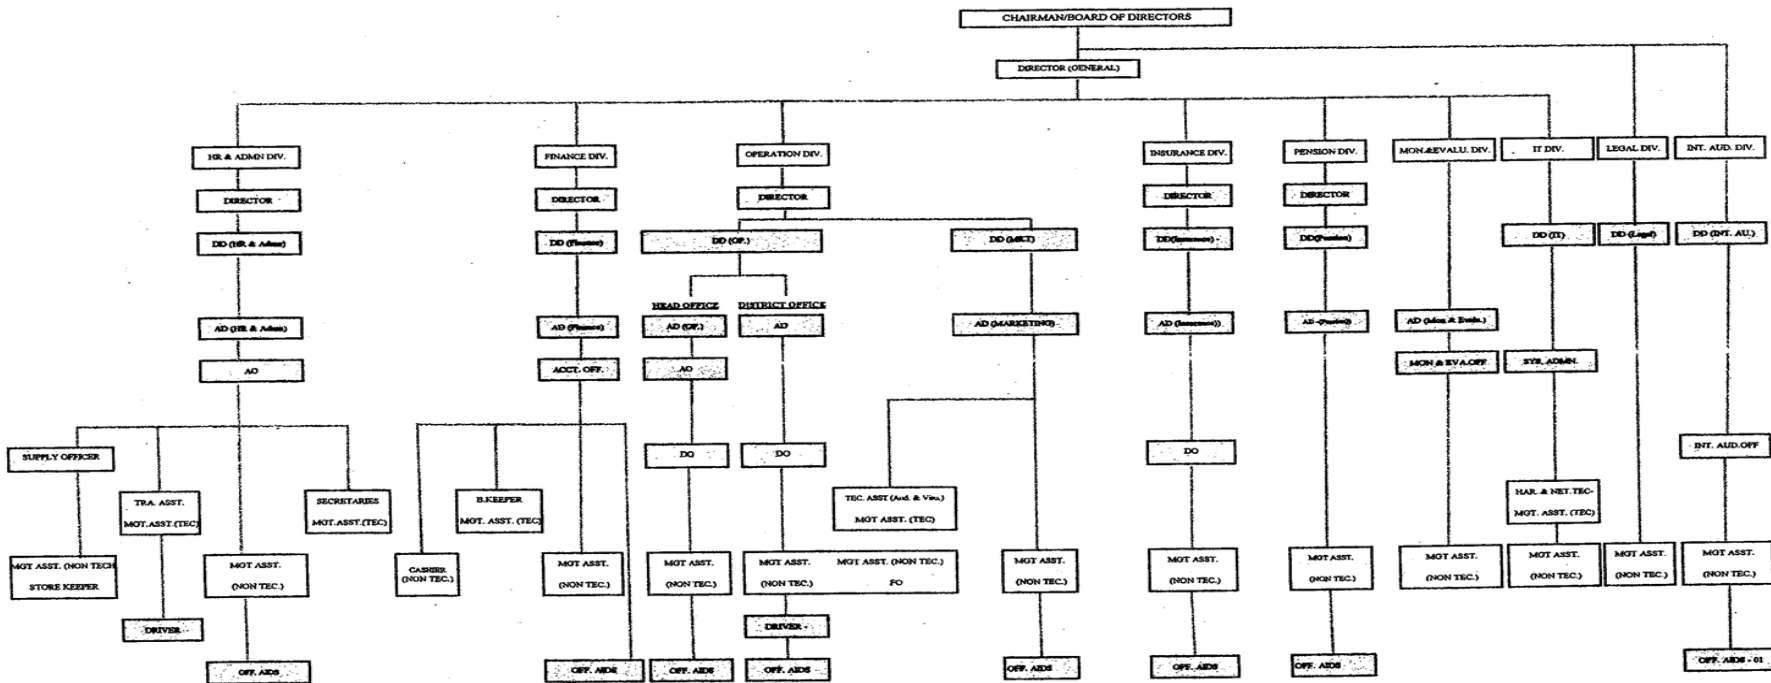

➤ **Mission..**

To provide an internationally recognized excellent service
through collective efforts and coordination with the relevant institutions for
the provision of Agricultural Insurance and benefits

ORGANIZATIONAL STRUCTURE AGRICULTURAL & AGRARIAN INSURANCE BOARD

Foreword

The Agricultural and Agrarian Insurance Board plays a pivotal role in the national drive being implemented for sustainable development of agriculture.

A key component of this is the involvement as an intermediary for the agriculturalist in the risk management. Aside from undertaking the risks associated with crops of agriculturalists, the Board works towards social security of the agriculturalist by offering insurance cover for their vehicles, implements and stores.

Year 2019 was of special significance as it saw the practical implementation of the compulsory insurance scheme introduced in the Yala season of 2018 for 06 major crops cultivated abundantly across the country under the programmes for offering incentives and facilities for farmers such as the fertilizer subsidy launched by the government and implemented by the Ministry of Agriculture with the objective of stabilizing and expediting the food production process of the country aimed at sustainable promotion of the agriculturalist and agriculture.

Annual income from 2015 to 2019

Insurance Scheme	2015 (Rs Mn)	2016 (Rs Mn)	2017 (Rs Mn)	2018 (Rs Mn)	2019 (Rs Mn)

Total expenditure (including allocations)	(132.00)	(160.30)	(168.7)	(227.7)	(234.9)
Net annual profit/loss	8.80	339.90	42.3	921.0	652.3

The third party vehicle insurance scheme posted an outstanding growth in the year 2019 with the revenue reaching Rs. 220.15 million by the end of the year 2019 as against Rs. 137.85 recorded in the year 2018. This progress was primarily due trust being instilled about the scheme in agriculturalists thanks to the resolution of legal impediments of the third party insurance scheme and the extensive marketing and promotion campaign conducted at the district level. The income from the scheme served to boost the financial stability of the Board.

During the Maha season of 2018/19, considerable amount of crop damages were reported especially as a result of severe flooding experienced in the Northern Province in December 2019. A slew of mobile services were conducted for the inspection of damages caused to crops and arrangements were made to pay Rs. 946 million by way of compensation for the Maha Season.

In addition, 4,711 acres of maize cultivations in the Anuradhapura, Monaragala, Ampara and Badulla districts were infested with crop destroying Fall Army Worm caterpillar (locally known as 'Sena') and having assessed and calculated all damages, action was taken to pay Rs. 168 million to 4,265 farmers. Similarly, maize cultivators whose crops were partially or slightly damaged by the epidemic too were paid compensation.

By the end of the year 2019, computation of compensation of three cultivation seasons, i.e. Yala of 2018, Maha of 2019 and Yala of 2019 were completed and funds were released.

Action was also taken to consolidate the insurance cover for all cultivations included in the national insurance programme for the Yala season of 2019 by procuring reinsurance facilities from the National Insurance Trust Fund.

Under the guidance of the Ministry of Agriculture, activities relating to the introduction of an index based insurance scheme with the technical assistance from the International Finance Company (IFC) affiliated to the World Bank were carried out in several districts of the island and the programme for developing a Cloud based web/mobile application with a Management Information System encapsulating agricultural data too was successfully implemented in the year 2019. Under the programme, mapping of farming lands and entering data on farmers and their lands were carried out in several selected districts. Assessment of extensive damages caused to farming lands by devastating floods in the Northern Province using satellite images and drone technology, marked a new chapter for the Board in the use of modern technology.

The total number of subscribers to the Farmers' Pension and Social Security Benefit Scheme, the foremost social security benefit scheme administered by the Agricultural and Agrarian Insurance Board by the end of the year 2019 was 959,254 and the number of farmers provided benefits under the scheme during the year was 159,425.

In addition, the total number of fishermen subscribed to the Fishermen's Pension and Social Security Scheme administered for the wellbeing of fisheries community stood at 69,049 by the end of the year 2019 and monthly pension had been paid 475 subscribers.

The total liability of the Farmers Pension and Social Security Benefit Scheme at the end of the year 2019 was Rs. 70.2 billion. This year too, the Board did not receive Rs. 5 billion as per the decision taken at the time to provide treasury bonds to build the Farmers' Pension Fund in order to meet this liability and every year, the provisions required for the payment of farmers' pension are allocated by through the annual budget of the government.

The drafting of a new farmers' pension scheme more beneficial to agriculturalists that would replace the existing one has been finalized by the expert committee appointed for that purpose under the direction of the Ministry of Agriculture and plans are on the drawing board to refer this new scheme to the relevant parties for approval in the year 2020.

A noteworthy event of the year was the participation of 07 senior officials of the Board including the Chairman and Director General in training workshops and special agricultural insurance conferences provided to the Ministry by the government of India. Arrangements were also made to conduct a series of one-day workshops for field staffs of all districts and Management Assistants at the regional level on the insurance schemes administered by the Board, financial matters and computing and these workshops also helped to offer solutions to practical problems encountered by staff members of district offices. The workshops were conducted under the guidance and supervision of the heads of divisions of the head office.

During the year 2019, 24 vacancies were created either due to death or retirement of employees and twenty one external recruitments were made and one promotion was granted. The approved cadre as per the staff composition of the Board is 421 and the number currently employed is 282. Thus, the number of vacancies is 139.

The Agricultural and Agrarian Insurance Board as an institution that plays a central role in the overall economic process of the country offering strength to agriculturalists and the national agricultural production process for minimizing the risks making an invaluable contribution to the national agricultural and livestock process discharged its responsibilities with due diligence in the year 2019 as well.

Operations Division

Operations Division -2019

Agricultural and Agrarian Insurance Board operates with the prime objective of increasing local agro-production and protecting the agriculturist by introducing agricultural insurance to local agricultural field as a means of risk management. Agricultural insurance is a viable solution to economic problems faced by agriculturalists due to damages caused by droughts, floods and wild elephants to their cultivations. As a country with agriculture driven economy, the application of agricultural risk management in a practical manner has contributed to stabilize agriculture based domestic economy. The Board administers diverse and high benefit insurance schemes such as crop insurance, livestock insurance, Suwasetha and accident insurance, agricultural implements insurance, stores insurance and third party vehicle insurance.

The Operations Division is the division that plays the most critical role in expanding the services of the Board amongst the farmer community. The preparation of the Corporate Plan, Action Plan and all other institutional plans encapsulating the programme of work expected to be implemented by the Board, steering and controlling the district offices across the island for the implementation of plans so prepared and addressing all requirements that arise in implementing such plans are the major functions of the Operations Division.

- As the sole public sector institution that provides insurance services in the agricultural sector, the Operations Division took the initiative to operate a slew of insurance schemes island-wide in the year 2019 with the objective of fulfilling its responsibility of uplifting the local agriculture and stabilizing the economy of the agriculturalist to the maximum.

1. Crop insurance schemes (16)

- Paddy cultivation insurance scheme
- Maize cultivation insurance scheme
- Big onion cultivation insurance scheme
- Potato cultivation insurance scheme
- Chilli cultivation insurance scheme
- Soy cultivation insurance scheme
- Supplementary crops (green gram, peanuts, black gram) cultivation insurance scheme
- Sugarcane cultivation insurance scheme
- Export crops cultivation insurance scheme (pepper, cinnamon)
- Plantation crops (tea) cultivation scheme
- Coconut cultivation insurance scheme
- Floriculture insurance scheme
- Ginger cultivation insurance scheme
- Vegetable cultivation insurance scheme
- Banana cultivation insurance scheme
- Fruit cultivation insurance scheme

2. Warehouse insurance scheme

3. Agricultural implements insurance scheme including tractors

4. Livestock insurance scheme (2)

- Goat
 - Cattle
5. Accident insurance scheme
 6. Suwasetha health insurance scheme
 7. Third party vehicle insurance scheme
 8. Social security schemes (2)
 - Farmers' pension scheme
 - Fishermen's pension scheme

As a solution to difficulties faced by the farmer community due to damages caused to cultivations by droughts, floods and wild elephants, farmers had to subscribe to a compulsory insurance scheme with contributions from farmers and the government for the cultivations of paddy, maize, potatoes, big onions, soy and chilli and on a policy decision taken by the government, an insurance cover subject to a ceiling of Rs. 40,000 per acre was offered to an acre from the Yala season of 2018. This insurance scheme is implemented island-wide from the Yala season of 2018 with the coordination of all the relevant institutions including the Ministry of Agriculture, Agrarian Services Department, Mahaweli Development Authority, state and non-state banks.

Major programmes implemented by the Operations Division

- After reaping the harvest of the Maha season of 2017/18, the traditional “Aluth Sahal Mangalya” or new rice festival at the Jaya Sri Maha Bodhi premises was held on 06 and 07 April, 2018 under the patronage of His Excellency the President Maitrheepala Sirisena and the erection of the Pirith Mandapa, provision of public loudspeaker systems and other activities were sponsored by the Board and carried out by the officers of its staff.
- Torrential rains that lashed the districts of Jaffna, Kilinochchi, Vavuniya, Mannar and Mullativu caused havoc destroying much cultivation in the Maha season of 2018/2019. In particular, it was reported that nearly 27,000 acres of farming lands were destroyed following damages caused to the Iranamadu tank. At a meeting between the Minister of Agriculture, the heads of relevant institutions and officers, it was decided to draw up a formula to pay compensation to affected farming lands observed as such during field inspections. Accordingly, field observations were carried out jointly for a period of three weeks starting from 07.01.2019 by officers of the district office of the Board, Agrarian Service Officers and office bearers of farmer organizations. Thus, a more practical and accurate approach was adopted for paying compensation to farmers, having identified the damaged farming lands in the Northern Province.
- Inspection of maize cultivations fully damaged by crop-destroying Fall Army Worm (Sena) caterpillar mainly in the districts of Ampara, Monaragala and Batticaloa in the Maha season of 2018/19 was carried out as the first phase of paying compensation. The field observation activities were conducted from March to 11 April 2019 and action was taken to pay compensation to identified farmers employing a more accurate system.

- Field observations were carried out with the participation of officials of the head office and district offices to assess damages caused to cultivated lands by the prolonged drought and heavy rains in the Kurunegala, Gampaha and Matara districts in the Yala Season of 2019. In conducting observations, priority was accorded to Agrarian Service Centre areas wherefrom extensive damages were reported.
- “2025 Enterprises Sri Lanka” exhibition organized by the Ministry of Finance in collaboration with the Prime Minister’s Office on the theme of Agriculture in Sri Lanka in the year 2025 was held from 24 to 27 July, 2019 at the Walisinha Harischandra Park premises, in the Anuradhapura district and the Board maintained an exhibition stall. Action was taken to create awareness among those who visited the exhibition on all programmes operated by the Board using handbills, banners and new technology.
- A series of ceremonies to pay compensation to farmers whose crops were damaged in the Yala season of 2018 was held under the patronage of Prime Minister, Hon. Ranil Wickremesinghe and with the participation of other ministers in the Monaragala, Polonnaruwa, Anuradhapura, Ampara, Kurunegala, Matale, Thambuttegama, Jaffna, Gampaha, Puttalam and Hambantota districts.
- A ceremony to award compensation to farmers rendered helpless as a result of their maize cultivations being destroyed by Fall Army Worm caterpillar in the Maha season of 2018/19 was held on 31.07.2019 with the participation of ministers and MPs of the Trincomalee district at the Trincomalee Secretariat auditorium.
- A two-day workshop was conducted at Samurdhi Training Centre, Nillamba, Kandy on 25 and 26 October 2019 for all executive officers of the Head Office and districts with the objective of efficient and accurate discharge of services of the Board. Carrying out work in accordance with existing circulars and solutions to practical problems encountered during the course of work were discussed and special lectures were conducted for instilling positive thinking traits amongst officers.
- Awareness programmes were conducted at the district level for the staff of the Board to raise awareness on crop insurance, third party vehicle insurance, livestock insurance and office procedures.

Date	District offices participated in the programme	Venue of the programme
17.12.2019	Colombo, Kalutara, Gampaha, Ratnapura	Head office auditorium
19.12.2019	Monaragala, Badulla, Ampara, Embilipitiya	NAQDA-Monaragala
23.12.2019	Jaffna, Kilinochchi, Mannar, Trincomalee, Mullativu, Batticaloa, Vavuniya	Agrarian service auditorium, Vavuniya
24.12.2019	Anuradhapura, Polonnaruwa, Thambuttegama, Maho, Kurunegala, Dehiattakandiya, Manampitiya	District Secretariat, Anuradhapura

- Appointment of district agents (Public Sector) for the propagation of the third party vehicle insurance scheme among farmers at the district level was carried out. Awareness programmes were conducted for insurance agents of the districts of Kegalla, Matara, Maho, Gampaha, Anuradhapura, Monaragala, Badulla, Ratnapura.
- Arrangements were made through the district offices for the preparation of posters, banners and leaflets required for the special propaganda and promotion programmes conducted at the district level and upon requests made by the Gampaha, Anuradhapura, Thambuththegama, Kandy, Kalutara, Kurunegala, Colombo, Hambantota, Ratnapura and Badulla district offices, the Operations Division took necessary action to have such materials prepared and supplied to the relevant district offices.
- Special sales promotion programmes on the third party insurance scheme were conducted island-wide under the direction of the Marketing Division and the guidance of the district offices.

Insurance Division

Agricultural Insurance Scheme

&

Livestock Insurance Scheme

Insurance Division -2019

The key responsibility of the Insurance Division is to formulate insurance schemes and discharge duties relevant to the release of compensation for liabilities received under insurance schemes with emphasis on crop insurance, livestock insurance and general insurance. Accordingly, the major activities carried out in the year 2019 are as follows.

Yala season of 2018

Since the crop insurance scheme was amended by the Ministry concurrent to the national insurance programme for the Yala season of 2018, the indemnification methods had to be updated. Accordingly, the background was laid for the payment of compensation for crop damages caused to the six types of crops. Several mobile programmes were conducted for the release of compensation for crop damages of the Yala Season of 2018. Teams were sent to the Nuwaraeliya, Kandy and Gampaha districts where heavy damages were caused to cultivations for the conduct of random inspections on of crop damages in the Yala season of 2018. In districts where mobile services were not conducted, officers were deployed at the district level for the computation of compensation for the Yala season of 2018 and computation of calculation was completed by 20.06.2019.

The summary of the payment of compensation for the Yala season of 2018 for which payments were made during the year 2019 is as follows.

No	District	No: of farmers	No: of acres	Compensation
1	Gampaha	1571	1829.79	23,236,958.00
2	Puttalam	1282	2153.74	43,694,540.00
3	Kegalla	206	116.60	1,787,515.00
4	Manampitiya	994	1141.50	35,721,200.00
5	Kurunegala	5036	4067.49	101,763,986.00
6	Maho	1623	1490.22	39,200,308.00
7	Monaragala	713	997.55	25,908,050.00
8	Ratnapura	82	46.25	685,950.00
9	Vavuniya	5	25.00	500,000.00
10	Polonnaruwa	2165	4407.50	111,896,650.00
11	Badulla	570	689.70	17,676,024.25
12	Dehiattakandiya	152	193.19	3,591,050.00
13	Hambantota	600	709.76	17,920,207.00
14	Ampara	372	726.81	16,418,172.00
15	Anuradhapura	1839	2335.38	54,716,450.00
16	Kalutara	349	321.92	3,835,141.00
17	Kandy	64	37.95	8688,870.00
18	Matale	1091	1052.36	27,345,485.00
19	Matara	398	362.95	7,578,570.00
20	Thambuttegama	969	870.58	21,026,984.00
21	Nuwaraeliya	334	153.58	3,376,896.00
22	Galle	57	54.50	1,114,450.00
23	Trincomalee	175	313.50	7,579,600.00
24	Mullativu	8	20.00	364,000.00
	Total	20,655	24,117.82	567,807,056.25

b. Maha season of 2018/19

As Of 17.02.2018, a considerable amount of crop damages in respect of the Maha season of 2018/19 were reported. Accordingly, officers had to be deployed for inspecting damaged farming lands from the very beginning of the year 2019 and conduct mobile programmes for computing compensation. Similarly, action was taken to release compensation for crop damages caused due to flash floods in the Northern Province in December 2018 and officers of the Division were deployed for duties in the Northern Province.

Several mobile services were held for releasing compensation for damages caused to crops by floods of the Maha season of 2018/19. Accordingly, action was taken to release funds as tabulated below. The total amount released was Rs. 946 million.

Summary report of compensation –Maha season 2018/19			
District	No: of farmers	No: of acres	Compensation
Ampara	5183	8,648.24	163,311,988.00
Anuradhapura	3078	5,442.39	111,408,850.00

C. Damages caused by Fall Army Worm Caterpillar to maize cultivations

The release of compensation for 2018 for damages caused to maize cultivations by Fall Army Worm (Sena) caterpillar in respect of the Maha season of 2018/19 also took place this year. Accordingly, measures were taken for the computation of compensation for damages caused to cultivations in the Anuradhapura, Monaragala, Ampara and Badulla districts.

Having prepared the Cabinet Memoranda for securing provisions for this purpose, steps were taken to have funds released for cultivations that were fully damaged.

Details pertaining to the release of compensation in the following table A. Similarly, Table B shows partial and minor damages caused by Fall Armyworm caterpillar.

2018-19 Payment of compensation – Fall Army Worm caterpillar

A. Payment of compensation for full damage

No	District	No. of farmers	No. of acres	Compensation	
1	Ampara	302	409.19	16,367,400.00	With the approval of the Cabinet, compensation was paid for full damages. Memorandum No. 19/0166/118/010

Suwasetha/ Accident Insurance

Under the Suwasetha Scheme claims for insurance were insignificant and the total compensation paid was less than one hundred rupees' Liabilities have not arisen under the accident insurance scheme.

Medium term measures designed to improve the performance were implemented as follows

Several mobile programmes were held in 2019 for computing compensation for the crop damages of Yala Season 2019 and 90% of compensation computation, i.e. computation of compensation in all districts and regions with high potential had been finalized as at 31.12.2019. Accordingly, having computed compensation for three cultivation seasons i.e. Yala 2018, Maha 2018/19 and Yala 2019, necessary measures were taken to release funds.

Reinsurance activities

By May 2018, necessary measures had been taken as per the instructions of the Board of Directors to obtain reinsurance programmes for the Yala season of 2019 from the National Insurance Trust Fund. They are as follows.

Matter	
Extent in acres where six crops including paddy has been cultivated	450,000
Total stated insured amount	Rs. 1,232,876,701.00
Amount reinsured (Excess of loss sum insured)	Rs. 873,796,276.00
Total retentions of the insured	Rs. 359,080,425.00
Premium payable (MDP 80%)	Rs. 148,380,848.00 (subject to the payment of premia in arrears in relation to the increase in the number of acres cultivated)
Risk covered	Floods, drought, wild elephants, other natural disasters

Accordingly, reinsurance facilities for all crops included in the national insurance programme for the Yala season of 2019 too were procured from the National Insurance Trust Fund for guaranteeing the insurance coverage.

Action was taken to contribute resources for awareness programmes on future insurance activities conducted for officers of the Board during the tail end of the year 2019. Apart from duties relating to crop damages, action was taken to update the relevant documents to be in compliance with the amended circulars.

Similarly, measures were taken to secure the approval of the Board of Directors for circulars prepared for sugarcane cultivation and that scheme is expected to be administered from the year 2020 onwards.

Having prepared all reports required for obtaining reinsurance facilities for crops to be insured in the 2019/20 and 2020 Yala season, the recommendation of the Technical Committee was referred to the Ministerial Procurement Committee. Steps were taken to contribute necessary resources for updating the incentive scheme scheduled to be provided to the entire staff of the Board.

Pension Division

**Farmers' Pension and Social
Security Benefit Scheme**

&

**Fishermen's Pension and Social
Security Benefit Scheme**

Farmers' Pension Division -2019

Farmers' Pension and Social Security Benefit Scheme

The total number of farmers subscribed to the Farmers' pension and social security benefit scheme established by the Farmers' Pension and Social Security Benefit Scheme No. 12 of 1987 by the year 2019 was 959,254. The number of farmers to be provided with benefits under this scheme by the year 2019 was 159,425 and the amount paid as pensions was Rs. 3,164,343,659.

The fund of the Farmers' Pension and Social Security Benefit Scheme became zero by mid 2010 as result of the increase of the pension paid to those over 60 years from Rs 200/- which was the amount prescribed under the provisions laid down for higher age categories at the introduction of the scheme to Rs 1000/- on the basis of two separate cabinet decisions, payment of pension to the surviving spouse from the date of the death of the pensioner until the age of 80 of the pensioner had he lived, and the extension of two year period for those in the age category of 46 years to 59 years to join the scheme until the year 2007. Nevertheless the Board continued to pay pension entitlements using the provisions allocated by the Treasury and other funds maintained by the Board until December 2011. However, due to exhaustion of funds, pension entitlements could not be paid from January 2012 to December 2013. Still, the death and disablement benefits were paid continually to subscribers.

A restructuring of the scheme was implemented under the guidance of the Ministry of Finance and Planning, offering a sustainable solution to the financial crisis of the scheme while ensuring the continuity of same. Consequently, necessary measures were taken as per the budget proposals of 2014 to enact this scheme as a new scheme with enhanced benefits and to resume the payment of pension from January 2014 with enhanced benefits corresponding to the new scheme.

By the end of the year 2019, the current liability of the Farmers Pension Scheme was approximately Rs. 70.2 million. Though it was proposed to provide Rs 5 billion from the budget of 2015 in terms of the decision to offer treasury bonds to build the Farmers' Pension Fund in order to meet this liability, the Board did not receive the said funds. Every year, the funds required for the payment of farmers' pension is allocated through the national budget.

Fishermen's Pension and Social Security Benefit Scheme

The Fishermen's Pension and Social Security Benefit Scheme was established by Act No.23 of 1990 and implemented in terms of the regulations published in Extraordinary Gazette of 09th September 1996. This is a social security benefit scheme for fishermen who makes his living by fishing or fish farming, whether in the sea, lagoons or inland bodies of water.

The objects of the Scheme

The objects of the Scheme are:

- (a) to provide social security to fishermen during their old age or disability ;
- (b) to provide relief to the dependents of fishermen upon the death of such fishermen ;
- (c) to encourage fishermen to continue in their occupation ;
- (d) to attract young persons to the fishing industry ; and
- (e) to inculcate the habit of saving and to promote thrift among the fishermen.

The total number of fishermen to whom subscription has been granted by the end of the year 2019 was 69,049. Rs 66,976,774/- was paid as pension to 4,755 pensioners. These payments are disbursed through 390 post offices.

Mr. W.M.M.B. Weerasekara	Committee Member –Commissioner General, Department of Agrarian Development
Mr. P.S.K.R. Weerakoon	Committee Member- Additional Secretary, Ministry of Agriculture

Members of the Audit and Management Committee dated 22.07.2019

Mr. H.A.N.S. Kumara	Chairman of the Committee –Director, Department of Public Enterprises
Mr. W.M.M.B. Weerasekara	Committee Member –Commissioner General, Department of Agrarian Development
Mrs. Nimalka Dias	Committee Member- Additional Secretary, Ministry of Agriculture

Members of the Audit and Management Committee dated 07.11. 2019

Mrs Y. Darshani De Silva	Chairman of the Committee –Director, Department of Public Enterprises
Mr. W.M.M.B. Weerasekara	Committee Member –Commissioner General, Department of Agrarian Development
Mrs. Nimalka Dias	Committee Member- Additional Secretary, Ministry of Agriculture

The evaluation of the audit inquiries conducted by the Internal Audit Division as per the annual audit plan, the review of government audit queries and the review of the Auditor General's report in respect of the financial reports were carried out at the Audit Management Committee meetings.

Planning Division

Planning Division – 2019

The Planning Division aligning itself with the vision and mission of the AIB, coordinated with all divisions of the Board in the year 2019 as well and made plans and designed projects and schemes required to achieve objectives and goals, collected data and statistics in chronological order analyzed same, submitted conclusions and recommendations and conducted research activities.

➤ Coordination amongst divisions, collection of data and information and coordination with external institutions

While maintaining sound relationships with all other divisions of the Board, the Planning Division was engaged in systematic collection of data and statistics relating to primary activities of the Board and having analyzed the data thus collected the monthly, quarterly and yearly progress reports were prepared. Further, in coordination with all institutions involved in the agricultural sector including the Ministry of Mahaweli, Agriculture, Irrigation and Rural Development, all reports requested by such institutions and prepared and submitted to them expeditiously.

➤ Implementing project and research activities

Under the guidance of the Planning Division, the following projects exploring as to how new technologies associated with agro insurance can be adopted for Sri Lanka while minimizing the identified issues and irregularities in the process of payment of compensation and optimizing the process of damage assessment and payment of compensation was implemented successfully in the year 2019.

➤ Project for the introduction of an index based insurance scheme

The index based insurance scheme launched under the counsel of the Ministry of Agriculture and with technical support from the International Finance Company affiliated to the World Bank was implemented in the Hambantota, Kurunegala, Anuradhapura, Ampara, Gampaha, Kilinochchi, Vavuniya and Mullativu districts .

This new scheme was implemented on trail basis in the Vavuniya district for the Maha season of 2018/19 and the Yala season of 2019. Under the new scheme, action was taken to pay compensation amounting to Rs. 7,294,271.00 for 994.42 acres of farming lands of 336 farmers for the Maha season of 2019/19 and compensation to the tune of Rs. 1,299,360.00 for 90 acres of cultivated lands of 77 farmers for the Yala season of 2019.

Compensation was also computed under the new scheme for the districts of Hambantota, Kurunegala, Anuradhapura, Ampara, Gampaha, Kilinochchi and Mullativu and the outcome was compared with the data of compensation payment under the existing system and action was taken to further streamline the new insurance products. Further, collection of basic data for the preparation of insurance schemes for the Maha Season 2019/20 was commenced from the end of this year 2019.

➤ **Programme for developing a Cloud based Web/Mobile Application with a Management Information System having agricultural data**

In partnership with the above project, the programme for developing a Cloud based Web/Mobile Application with a Management Information System (MIS) incorporating agricultural data was successfully implemented in the year 2019 too under the patronage of the Ministry of Agriculture.

A pilot project centered on the Gampaha and Badulla districts for feeding data into a main data system inclusive of data of farmers and farming lands and the mapping of farming lands at the field and track level in this web application was launched from June 2019.

Awareness programmes for field level officers involved in agriculture were conducted at the Divisional Secretariat and Agrarian Service Centre levels in the two districts. Similarly, training workshops were conducted with the participation of GeoEDGE Limited which developed the software for officers involved in feeding data and mapping of farming lands.

With the support of the Agricultural Research and Production Assistants thus trained, activities pertaining to the mapping of farming lands entering data of farmers and farming lands were carried out by data entry officers till the end of the year 2019. It was decided to commence this

project in 2020 focusing on the Hambantota District and discussions on the preliminary stage were initiated in the latter half of 2019.

Further, the development of web/mobile application of this project was carried out throughout the year 2019. Activities pertaining to the development of the above application to suit the needs and processes of the Board were performed conducting regular meetings with the GEOEDGE officers.

➤ **Using satellite images and drone technology for agro-insurance**

As per the instructions issued by the government to award compensation speedily for damages caused to crops in the districts of Kilinochchi, Mullativu, Jaffna, Vavuniya and Mannar due to floods in the Northern Province in December 2018, the AAIB in partnership with the Northern Province Agricultural Department, started the assessment of damages in each district from 05.01.2019. Under the auspices of the Planning Division, field level observations and assessment of crop damages were carried out promptly in coordination with officers of other districts of the AAIB and Agricultural Research and Production Assistants of the Agrarian Development Department.

Finance Division

Financial Summary

The agricultural Insurance scheme of the Board posted a net profit of Rs 652 million in the year 2019, and the operational profit made during the year was Rs 878 million.

In terms of the budget proposals of 2018, the compulsory insurance scheme for six major crops i.e. paddy, maize, big onions, potatoes, soy and chillies was implemented this year too. It was proposed to offer a cover subject to a ceiling of Rs. 40,000 per acre.

Taking into consideration the severe drought that lasted several cultivation seasons and the impact of changes in climatic and weather patterns, it was decided not to charge the hitherto charged premium from farmers and instead the government paid the premia which amounted to Rs. 1739.88 million.

Other insurance schemes have achieved a rapid growth during the year which amounted to year on year increase of 53%.

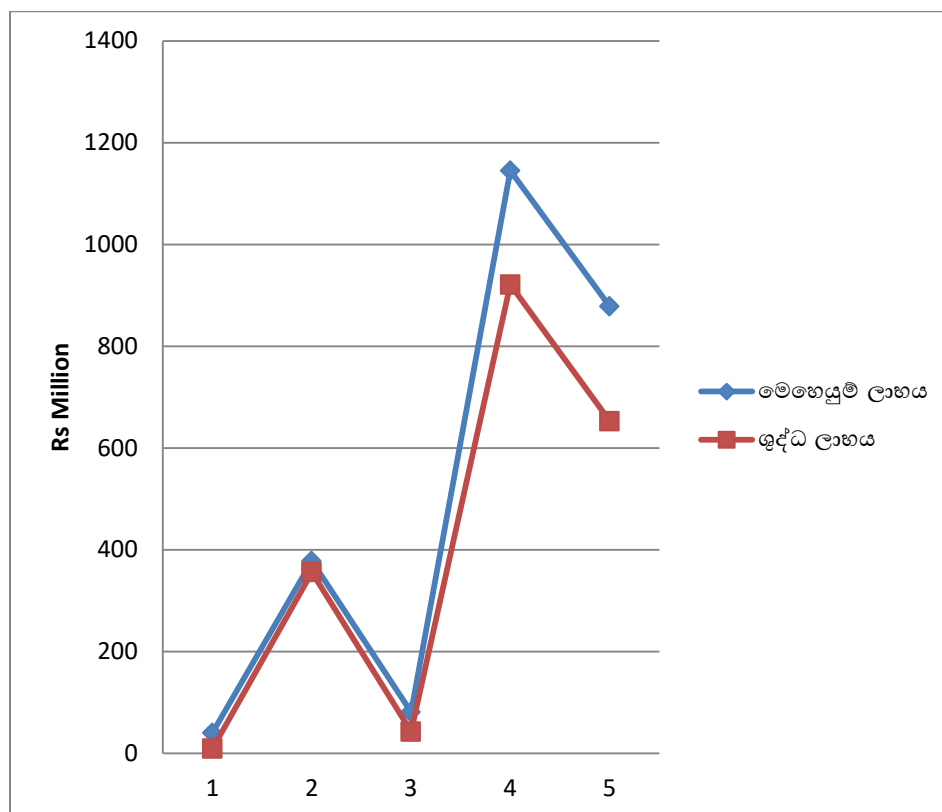

During the year 2019, the compulsory crop insurance indemnity liability of the AAIB was approximately Rs. 2,155 million.

During the year 2019, a net amount of Rs. 3,059 million was paid as pension to 159,425 farmers under the farmers' pension scheme and the amount paid as pension under the Fishermen's Pension Scheme to 4,755 fishermen was Rs 63.3 million.

**Financial Information of the five
preceding years**

Profitability

- Agricultural Insurance Scheme

	2015	2016	2017	2018	2019
Operational profit	39.90	377.70	80.90	1144.70	878.00
Net profit	8.70	355.80	42.30	921.00	652.30

In the year 2019, a net profit of Rs. 652.3 million was earned through the Agricultural Insurance Scheme which denotes a decline of 29.18% in comparison to 2018. The key contributory factor for this decline was the reduction in the premium granted by the government as against the previous year for the 06 crops coming under the compulsory insurance scheme. Accordingly, a financial provision of Rs. 1739.88 million was allocated to the Board by the government which resulted in the total insurance income of the Board reaching Rs. 2,038 million signifying a drop of 17.9% compared to 2018. This was predominantly due to the reduction in the allocation of compulsory insurance scheme.

In addition, the third party insurance scheme and other insurance schemes administered by the Board recorded impressive gains compared to the previous year. The income generated by the Board from these insurance schemes in the year 2019 was Rs 237.4 million which was a growth of 53% compared to year 2018. Accordingly, the Board was able to achieve the expected progress from all insurance schemes during the year 2019.

- **Farmers Pension Scheme**

	2015	2016	2017	2018	2019
Income	166	221.6	208.4	211.9	233.40
Operational expenditure	2432	2653	2679	3114	3271.00

Under the new Farmers' Pension Scheme introduced in year 2014, a net pension amounting to Rs. 3,217 million was paid to 159,425 farmers in 2019. The total operational expenditure of the Farmers' Pension

Scheme during the year was Rs 3,271million and as in the previous year, this year too, the Treasury allocated Rs 3065 million as provisions for the payment of pension.

- Fishermen’s Pensions Scheme**

	1	2	3	4	5
	2015	2016	2017	2018	2019
Income	35.6	60.5	56.1	69.7	53.00
Operational expenditure	50.7	58	63.7	66.1	67.20

During the year 2019, the amount paid as pension to fishermen was Rs 63.3 million and the funds available with the Board was used for this purpose. However if the existing pensions scheme for fishermen is to be continued further, it has been computed that by 2021 it will reach zero.

Agricultural and Agrarian Insurance Board

Agriculture Insurance Scheme

Significant Accounting Policies

1. General Policies

1.1 Reporting Entity

Agricultural and Agrarian Insurance Board of Sri Lanka (hereafter referred to as the 'Board') was incorporated by Act No.20 of 1999 and is situated at 117, Subadharama Road, Gangodawila, Nugegoda.

1.2 Principal Activities and Nature of Operations

The board is primarily involved in the Agricultural Insurance including agricultural and horticultural crops, medical plants, livestock, fisheries and forestry, agricultural equipment and implements and the storage and preservation of agricultural & horticultural produce and the products of medicinal plants, fisheries and forest produce. Further the board is also engaging in providing medical benefits, operating social security schemes and fertilizer insurance scheme for agriculturists & Third Party insurance for vehicle who owned by the agriculturists . There were no changes in the nature of the principal activities of the board during the financial year under review.

1.3 Basis of Preparation

(a) Statement of Compliance

The financial statements comprise the statement of financial position, statement of comprehensive income, statement of changes in funds and reserves, statement of cash flows and notes to the financial statements. These statements have been prepared in accordance with the Sri Lanka Accounting Standards (SLFRSs and LKASs) issued by the Institute of Chartered Accountants of Sri Lanka.

(b) Basis of Measurement

The financial statements have been prepared on historical cost basis except where appropriate disclosures are made with regard to fair value under relevant notes.

(c) Comparative Information

Comparative information including quantitative, narrative and descriptive information is disclosed in respect of the previous period for all amounts reported in the financial statements in order to enhance the understanding of the financial statements of the current period and to improve the inter- period comparability.

When the presentation or classification of items in the financial statements have been amended, comparative amounts have also been reclassified to conform with the current year in order to provide a better presentation.

(d) Functional and Presentation Currency

The financial statements are presented in Sri Lankan Rupees, which is the functional and presentation currency of the board.

(e) Use of Estimates and Judgments

The preparation and presentation of financial statements in conformity with SLFRS/LKAS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates and judgments used.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Information about significant areas of estimates, uncertainty and critical judgments in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the notes to the financial statements.

(f) Going Concern

The management has made an assessment of the board's ability to continue as a going concern. Therefore the financial statements continue to be prepared on the going concern basis.

2. Assets and the Bases of their Valuation

2.1 Property, Plant and Equipment

(a) Recognition and Measurement

Items of property, plant and equipment are stated at cost or at fair value less accumulated depreciation or impairment losses.

All items of property, plant and equipment are initially recorded at cost less accumulated depreciation or impairment losses. Significant components of an asset are identified and depreciated separately. When significant parts of property, plant and equipment are required to be replaced at intervals, the entity derecognizes the replaced part, and recognizes the new part with its own associated useful life and depreciation. All other repair and maintenance costs are recognized in the income statement as incurred.

Fully depreciated assets with a total historical cost of Rs. 26,313,350.60 has been included in property plant and equipment.

(b) Cost

The cost of property, plant and equipment comprises its purchase price and any directly attributable cost of bringing the asset to working condition for its intended use.

Subsequent expenditure incurred for the purpose of acquiring, extending or improving assets of a permanent nature in order to carry on or increase the earning capacity of the assets has been treated as capital expenditure.

Expenditure incurred to replace a component of an item of property, plant and equipment that is accounted for separately, including major inspection and overhaul expenditure, is capitalized. Other subsequent expenditure is capitalized only if it is probable that the future economic benefits embodied within the part will flow to the Board and its cost can be measured reliably.

(c) Revaluation

After recognition as an asset, lands and buildings whose fair value can be measured reliably, have been carried at revalued amount at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Valuations are being performed to ensure that the fair value of a revalued asset does not materially differ from its carrying amount as at the reporting date.

On revaluation of motor vehicle, any increase in the revaluation amount is credited to the revaluation reserve in equity unless it off sets a previous decrease in value of the same asset that was recognized in the Statement of profit or loss. A decrease in value is recognized in the Statement of profit or loss where it exceeds the increase previously recognized in the revaluation reserve. Upon disposal, any related revaluation reserve is transferred from the revaluation reserve to retained earnings and is not taken into account in arriving at the gain or loss on disposal.

(d) Depreciation

Depreciation is charged to the statement of comprehensive income on the straight line method at the following rates per annum in order to write off the cost of such assets over their estimated useful lives.

Building	4%
Motor Vehicle	20%
Furniture & Fitting	10%
Publicity Equipment	10%
Loss Preventive Equipment	10%
Crop Cutting Equipment	10%
Bicycles	20%
Survey Equipment	10%
Weighing Scale	10%
Welfare Equipment	10%
Telephone	20%
Computer	20%
Motor Bicycles	20%

2.2 Intangible Assets

An intangible asset is recognized if it is probable that the future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measured reliably in accordance with the Sri Lanka Accounting Standard LKAS 38 – Intangible Assets. Accordingly, these assets are stated in the statement of financial position at cost less accumulated amortization and any accumulated impairment loss.

Computer software is amortized over a period of 5 years on the straight line method.

2.3 Inventories

Inventories are stated at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and selling expenses. The cost includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition.

2.4 Financial Assets

Financial assets within the scope of LKAS 39 are classified as financial assets at fair value through profit or loss, loans and receivables, held-to maturity investments, available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

The Board determines the classification of its financial assets at initial recognition.

All financial assets are recognized initially at fair value plus, in the case of assets not at fair value through profit or loss, directly attributable transaction costs.

The Board initially recognizes loans and receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognized initially on the trade date at which the Board becomes a party to the contractual provisions of the instrument.

The Board derecognizes a financial asset when the contractual rights to the cash flows from the asset expires, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset is transferred. Any interest in transferred financial assets that is created or retained by the Board is recognized as a separate asset or liability.

Financial assets and liabilities are offset and the net amount is presented in the statement of financial position when, and only when, the Board has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

The financial assets of the Board include cash and short term investments and trade and other receivables.

(a) Financial Assets at Fair Value through Profits or Loss

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with changes in fair value recognized in finance income or finance expense in the statement of comprehensive income.

(b) Loans & Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of comprehensive income. The losses arising from impairment are recognized in the statement of comprehensive income in finance costs.

Loans and receivables comprise trade receivables, employee loans, deposits, advances, other receivables and cash and cash equivalents.

(c) Held-to-Maturity Investments (HTM)

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held-to-maturity when the Board has the positive intention and ability to hold them to maturity. After initial measurement, held-to maturity investments are measured at amortized

cost using the effective interest rate (EIR) method, less impairment. The EIR amortization is included in finance income in the statement of comprehensive income. The losses arising from impairment are recognized in the statement of comprehensive income in financial costs.

Investments in government securities and in fixed deposits have been classified under HTM investments.

(d) Available-for-Sale Financial Investment

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for sale or are not classified in any of the above categories of financial assets. Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses are recognized in other comprehensive income and presented in the fair value reserved in funds and reserves. Interest income on available-for-sale debt securities is calculated using the effective interest rate method (EIR) and is recognized in profit or loss. When an investment is derecognized, the gain or loss accumulated in funds and reserves reclassified to profit or loss.

The board has not designated any financial asset upon initial recognition as available-for sale investment.

2.5 Impairment of Financial Assets

The board assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired and if such impairment has occurred, that amount of impairment is calculated by taking the difference between the assets carrying amount and the present value of estimated future cash flow.

3. Liabilities and Provisions

Liabilities classified as current liabilities on the statement of financial position are those which fall due for payment on demand or within one year from the reporting date. Non-current liabilities are those balances that fall due for payment after one year from the reporting date.

All known liabilities have been accounted for in preparing these financial statements. Provisions and liabilities are recognized when the Board has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation.

3.1 Provision for Claims

Liability for outstanding claims are recognized based on the risk factors of crop and insured subject matter. Following table shows the indemnity provision made for the financial year 2019.

Insured Subject	Provision for Indemnity (Rs.)
Kethata Aruna	2000,284,021.00
Livestock	7,000,000.00
Suwasetha and Agri Equipment	500,000.00
Subsidiary Crops	2,000,000.00
Moveable Property	23,559,605.00
	2,033,405,726.00

Provision for third party Insurance indemnity

Third party provision is recognized weighted average rate of 15% from three consecutive year's income. Out of 15% rate proportionated 7%, 5%, 3% for current year income, previous year income and year after previous year respectively.

3.2 Provision for Bad Debts

A 5% provisions has been made from the total staff loan as the Provision for Doubtful Debts.

3.3 Retirement Benefits

A Provision has been made for retiring gratuities from the completion of the first year of service for all permanent employees in conformity with Sri Lanka Accounting Standard 19 Retirement Benefits costs. However, according to the Payment of Gratuity Act No.12 of 1983 the liability to an employee arises only on completion of five years of continued service. The liability is not externally funded.

3.4 Capital Commitments and Contingent Liabilities

Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefits is not probable or cannot be reliably measured.

Capital commitments and contingent liabilities of the Board are disclosed in the respective notes to the financial statements.

4. Statement of Comprehensive Income

4.1 Revenue

1. The revenue of the board represents the income from insurance premium and interest income from treasury bills and loans of employees, and other miscellaneous income.
2. All income has been recognized on accrual basis.
3. Insurance Premium have been received from the Government as subsidy on behalf of the farmers.
4. Government Grants received for capital expenditure has been recognized as income on systematic basis.

4.2 Revenue Recognition

1. Insurance premium revenue has been recognized based on the time of insured.
2. The above revenue is on accrual basis & matched with related expenditure.
3. Interest income is accrued on time basis.

4.3 Accounting for Government Grants

Grants that compensate the Board for expenses incurred are recognized as revenue in the statement of comprehensive income in the same period in which the expenses are recognized. Grants that compensate the Board for the cost of an asset are recognized in the statement of comprehensive income on a systematic basis over the useful life of the related asset.

4.4 Expenditure

Expenses are recognized in the statement of comprehensive income on the basis of direct association between the cost incurred and the earning of specific items of income. All expenditure incurred in the running of the board and in maintaining the capital assets in a state of efficiency has been charged against revenue in arriving at the surplus for the year.

The indirect expenses of the board apportioned on the following rates by the board paper No: 401/4 - 2008.10.15

Expenditure	Rates
Salaries, EPF, ETF, Gratuity	50%

Agricultural and Agrarian Insurance Board

Farmer's Pension & Social Security Benefits Scheme

Significant Accounting Policies

1. General Policies

1.1 Reporting Entity

Agricultural and Agrarian Insurance Board of Sri Lanka (hereafter referred to as the 'Board') was incorporated by Act No.20 of 1999 and is situated at 117, Subadharama Road, Gangodawila, Nugegoda and the Farmer's Pension and Social Security Benefits Scheme was established in accordance with the provision of Farmer's Pension and Social Security Benefits Scheme Act No.12 of 1987.

1.2 Principal Activities and Nature of Operations

The principal activity is to operate a pension and social security benefits scheme for farmers.

1.3 Basis of Preparation

(g) Statement Of Compliance

The financial statements comprise the statement of financial position, statement of comprehensive income, statement of changes in funds and reserves, statement of cash flows and notes to the financial statements. These statements have been prepared in accordance with the Sri Lanka Accounting Standards (SLFRSs and LKASs) issued by the Institute of Chartered Accountants of Sri Lanka.

(h) Basis of Measurement

The financial statements have been prepared on historical cost basis except where appropriate disclosures are made with regard to fair value under relevant notes.

(i) Comparative Information

Comparative information including quantitative, narrative and descriptive information is disclosed in respect of the previous period for all amounts reported in the financial statements in order to enhance the understanding of the financial statements of the current period and to improve the inter- period comparability.

When the presentation or classification of items in the financial statements have been amended, comparative amounts have also been reclassified to conform with the current year in order to provide a better presentation.

(j) Functional and Presentation Currency

The financial statements are presented in Sri Lankan Rupees, which is the functional and presentation currency of the board.

(k) Use of Estimates and Judgments

The preparation and presentation of financial statements in conformity with SLFRS/LKAS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates and judgments used.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Information about significant areas of estimates, uncertainty and critical judgments in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the notes to the financial statements.

(l) Going Concern

The management has made an assessment of the board's ability to continue as a going concern. Therefore the financial statements continue to be prepared on the going concern basis.

2. Assets and the Bases of their Valuation

2.1 Property, Plant and Equipment

(e) Recognition and Measurement

Items of property, plant and equipment are stated at cost or at fair value less accumulated depreciation or impairment losses.

All items of property, plant and equipment are initially recorded at cost less accumulated depreciation or impairment losses. Significant components of an asset are identified and depreciated separately. When significant parts of property, plant and equipment are required to be replaced at intervals, the entity derecognizes the replaced part, and recognizes the new part with its own associated useful life and depreciation. All other repair and maintenance costs are recognized in the income statement as incurred.

Fully depreciated assets with a total historical cost of Rs. 27,150,285.46 has been included in property plant and equipment

(f) Cost

The cost of property, plant and equipment comprises its purchase price and any directly attributable cost of bringing the asset to working condition for its intended use.

Subsequent expenditure incurred for the purpose of acquiring, extending or improving assets of a permanent nature in order to carry on or increase the earning capacity of the assets has been treated as capital expenditure.

Expenditure incurred to replace a component of an item of property, plant and equipment that is accounted for separately, including major inspection and overhaul expenditure, is capitalized. Other subsequent expenditure is capitalized only if it is probable that the future economic benefits embodied within the part will flow to the Board and its cost can be measured reliably.

(c) Revaluation

After recognition as an asset, lands and buildings whose fair value can be measured reliably, have been carried at revalued amount at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Valuations are being performed to ensure that the fair value of a revalued asset does not materially differ from its carrying amount as at the reporting date.

On revaluation of motor vehicle, any increase in the revaluation amount is credited to the revaluation reserve in equity unless it off sets a previous decrease in value of the same asset that was recognized in the statement of profit or loss. A decrease in value is recognized in the Statement of profit or loss where it exceeds the increase previously recognized in the revaluation reserve. Upon disposal, any related revaluation reserve is transferred from the revaluation reserve to retained earnings and is not taken into account in arriving at the gain or loss on disposal

(d) Depreciation

Depreciation is charged to the statement of comprehensive income on the straight line method at the following rates per annum in order to write off the cost of such assets over their estimated useful lives.

Furniture and Fittings		10%
Office Equipment		10%
Welfare Equipment		10%
Publicity Equipment		10%
Computers		20%
Computer Software		20%
Motor Vehicles		20%
Air Condition		20%

2.2 Intangible Assets

An intangible asset is recognized if it is probable that the future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measured reliably in accordance with the Sri Lanka Accounting Standard LKAS 38 – Intangible Assets. Accordingly, these assets are stated in the statement of financial position at cost less accumulated amortization and any accumulated impairment loss.

Computer software is amortized over a period of 5 years on the straight line method.

2.3 Inventories

Inventories are stated at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and selling expenses. The cost includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition.

2.4 Financial Assets

Financial assets within the scope of LKAS 39 are classified as financial assets at fair value through profit or loss, loans and receivables, held-to maturity investments, available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

The Board determines the classification of its financial assets at initial recognition.

All financial assets are recognized initially at fair value plus, in the case of assets not at fair value through profit or loss, directly attributable transaction costs.

The Board initially recognizes loans and receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or

loss) are recognized initially on the trade date at which the Board becomes a party to the contractual provisions of the instrument.

The Board derecognizes a financial asset when the contractual rights to the cash flows from the asset expires, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset is transferred. Any interest in transferred financial assets that is created or retained by the Board is recognized as a separate asset or liability.

Financial assets and liabilities are offset and the net amount is presented in the statement of financial position when, and only when, the Board has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

The financial assets of the Board include cash and short term investments and trade and other receivables.

(e) Financial Assets at Fair Value through Profits or Loss

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with changes in fair value recognized in finance income or finance expense in the statement of comprehensive income.

(f) Loans & Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is

included in finance income in the statement of comprehensive income. The losses arising from impairment are recognized in the statement of comprehensive income in finance costs.

Loans and receivables comprise trade receivables, employee loans, deposits, advances, other receivables and cash and cash equivalents.

(g) Held-to-Maturity Investments (HTM)

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held-to-maturity when the Board has the positive intention and ability to hold them to maturity. After initial measurement, held-to maturity investments are measured at amortized cost using the effective interest rate (EIR) method, less impairment. The EIR amortization is included in finance income in the statement of comprehensive income. The losses arising from impairment are recognized in the statement of comprehensive income in financial costs.

Investments in government securities and in fixed deposits have been classified under HTM investments.

(h) Available-for-Sale Financial Investment

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for sale or are not classified in any of the above categories of financial assets. Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses are recognized in other comprehensive income and presented in the fair value reserved in funds and reserves. Interest income on available-for-sale debt securities is calculated using the effective interest rate method (EIR) and is recognized in profit or loss. When an investment is derecognized, the gain or loss accumulated in funds and reserves reclassified to profit or loss.

The board has not designated any financial asset upon initial recognition as available-for-sale investment.

2.5 Impairment of Financial Assets

The board assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired and if such impairment has occurred, that amount

of impairment is calculated by taking the difference between the assets carrying amount and the present value of estimated future cash flow.

3. Liabilities and Provisions

Liabilities classified as current liabilities on the statement of financial position are those which fall due for payment on demand or within one year from the reporting date. Non-current liabilities are those balances that fall due for payment after one year from the reporting date.

All known liabilities have been accounted for in preparing these financial statements. Provisions and liabilities are recognized when the Board has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation.

3.1 Retirement Benefits

A Provision has been made for retiring gratuities from the completion of the first year of service for all permanent employees in conformity with Sri Lanka Accounting Standard 19 Retirement Benefits costs. However, according to the Payment of Gratuity Act No.12 of 1983 the liability to an employee arises only on completion of five years of continued service. The liability is not externally funded.

3.2 Capital Commitments and Contingent Liabilities

Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefits is not probable or cannot be reliably measured.

Capital commitments and contingent liabilities of the Board are disclosed in the respective notes to the financial statements.

3.3 Liability of Farmer's Pension Fund

Liability of farmer's pension scheme has been accounted in the financial statements on present value basis considering the actuarial calculation, which was done in the year of 2007.

4. Statement of Comprehensive Income

4.1 Revenue

- a) The revenue of the scheme represents the income from pension premium, interest income from treasury bills and other miscellaneous income.
- b) All income from premium collection has been recognized on as cash basis.

4.2 Revenue Recognition

- a) Pension premium revenue is recognition for the time of enrollment.
- b) The above revenue is on cash basis and matched with related expenditure.
- c) Interest income is accrued on a time basis.

4.3 Accounting for Government Grants

Grants that compensate the Board for expenses incurred are recognized as revenue in the statement of comprehensive income in the same period in which the expenses are recognized. Grants that compensate the Board for the cost of an asset are recognized in the statement of comprehensive income on a systematic basis over the useful life of the related asset.

4.4 Expenditure

Expenses are recognized in the statement of comprehensive income on the basis of direct association between the cost incurred and the earning of specific items of income. All

expenditure incurred in the running of the board and in maintaining the capital assets in a state of efficiency has been charged against revenue in arriving at the surplus for the year.

The indirect expenses of the board apportioned on the following rates by the Board Paper No.401/04. The rates are as follows;

Expenditure	Rates
Salaries, EPF, ETF, Gratuity	50%
Medical Expenses	50%
Consultancy Fees	40%
Welfare	50%
Uniform	48%
Entertainment	40%
Printing	40%
Legal fees	60%
Awareness & Training	20%
Allowances to B/M	40%
Rent, Telephone	40%
Postage	55%
Electricity	40%
Traveling, Over Time	50%
Water Charges	40%
Daily Pay	50%
Security	20%
Main. Office Equipment	20%
Main. Vehicle	40%
Main. Computer	25%
Fuel Expenses	30%
Main. Building	40%
Stationery	48%

5. Cash Flow Statement

The cash flow statement of the scheme has been presented using the indirect method, in accordance with the LKAS 7.

6. Events After The Reporting Date

The materiality of events occurring after the reporting date has been considered and appropriate adjustments, wherever necessary, have been made in the accounts.

7. Related Party Transactions

Agricultural Insurance Scheme and the Fisheries Pension Scheme are considered as related parties of Farmers Pension Scheme. The transactions carried out with these related parties are been disclosed based on fair value. Farmers Pension Scheme has taken a loan from Agricultural Insurance Scheme and Fisheries Pension Scheme amounting to Rs. 295,230,441.79 and Rs. 518,000,000 respectively.

8. Contingencies

A court case in connection with the payment of compensation to the farmer's affected by the closing of the Mavilaru Anicut is pending at Magistrate Court Colombo for misappropriating Mavilaru Funds and 3 officers of the board are to be indicated in high court for misappropriating a sum of nearly 7 Mn. Rupees.

Agricultural and Agrarian Insurance Board

Fisherman's Pension & Social Security Benefits Scheme

Significant Accounting Policies

1. General Policies

1.1 Reporting Entity

Agricultural and Agrarian Insurance Board of Sri Lanka (hereafter referred to as the 'Board') was incorporated by Act No.20 of 1999 and is situated at 117, Subadharama Road, Gangodawila, Nugegoda. Fishermen's Pension and Social Security benefits Scheme established according to the provision of Fishermen's Pension and Social Security Benefits Scheme Act (No.23 of 1990).

1.2 Principal Activities and Nature of Operations

Operating a pension and social security benefits scheme for fishermen.

1.3 Basis of Preparation

(a) Statement of Compliance

The financial statements comprise the statement of financial position, statement of comprehensive income, statement of changes in funds and reserves, statement of cash flows and notes to the financial statements. These statements have been prepared in accordance with the Sri Lanka Accounting Standards (SLFRSs and LKASs) issued by the Institute of Chartered Accountants of Sri Lanka.

(b) Basis of Measurement

The financial statements have been prepared on historical cost basis except where appropriate disclosures are made with regard to fair value under relevant notes.

(c) Comparative Information

Comparative information including quantitative, narrative and descriptive information is disclosed in respect of the previous period for all amounts reported in the financial statements in order to enhance the understanding of the financial statements of the current period and to improve the inter- period comparability.

When the presentation or classification of items in the financial statements have been amended, comparative amounts have also been reclassified to conform with the current year in order to provide a better presentation.

(d) Functional and Presentation Currency

The financial statements are presented in Sri Lankan Rupees, which is the functional and presentation currency of the board.

(e) Use of Estimates and Judgments

The preparation and presentation of financial statements in conformity with SLFRS/LKAS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates and judgments used.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Information about significant areas of estimates, uncertainty and critical judgments in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the notes to the financial statements.

(f) Going Concern

The management has made an assessment of the board's ability to continue as a going concern. Therefore the financial statements continue to be prepared on the going concern basis.

2 Assets and the Bases of their Valuation

2.1 Property, Plant and Equipment

(a) Recognition and Measurement

Items of property, plant and equipment are stated at cost or at fair value less accumulated depreciation or impairment losses.

All items of property, plant and equipment are initially recorded at cost less accumulated depreciation or impairment losses. Significant components of an asset are identified and depreciated separately. When significant parts of property, plant and equipment are required to be replaced at intervals, the entity derecognizes the replaced part, and recognizes the new part with its own associated useful life and depreciation. All other repair and maintenance costs are recognized in the income statement as incurred.

A fully depreciated asset with a total historical cost of Rs. 686,080.42 has been included in property plant and equipment.

(b) Cost

The cost of property, plant and equipment comprises its purchase price and any directly attributable cost of bringing the asset to working condition for its intended use.

Subsequent expenditure incurred for the purpose of acquiring, extending or improving assets of a permanent nature in order to carry on or increase the earning capacity of the assets has been treated as capital expenditure.

Expenditure incurred to replace a component of an item of property, plant and equipment that is accounted for separately, including major inspection and overhaul expenditure, is capitalized. Other subsequent expenditure is capitalized only if it is probable that the future economic benefits embodied within the part will flow to the Board and its cost can be measured reliably.

(c) Revaluation

After recognition as an asset, lands and buildings whose fair value can be measured reliably, have been carried at revalued amount at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Valuations are being performed to ensure that the fair value of a revalued asset does not materially differ from its carrying amount as at the reporting date.

On revaluation of motor vehicle, any increase in the revaluation amount is credited to the revaluation reserve in equity unless it off sets a previous decrease in value of the same asset that was recognized in the Statement of profit or loss. A decrease in value is recognized in the Statement of profit or loss where it exceeds the increase previously recognized in the revaluation reserve. Upon disposal, any related revaluation reserve is transferred from the revaluation reserve to retained earnings and is not taken into account in arriving at the gain or loss on disposal.

(d) Depreciation

Depreciation is charged to the statement of comprehensive income on the straight line method at the following rates per annum in order to write off the cost of such assets over their estimated useful lives.

Office Equipment	10%
Furniture & Fitting	10%
Welfare Equipment	10%
Computer	20%

2.2 Intangible Assets

An intangible asset is recognized if it is probable that the future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measured reliably in accordance with the Sri Lanka Accounting Standard LKAS 38 – Intangible Assets. Accordingly, these assets are stated in the statement of financial position at cost less accumulated amortization and any accumulated impairment loss.

Computer software is amortized over a period of 5 years on the straight line method.

2.3 Inventories

Inventories are stated at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and selling expenses. The cost includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition.

2.4 Financial Assets

Financial assets within the scope of LKAS 39 are classified as financial assets at fair value through profit or loss, loans and receivables, held-to maturity investments, available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

The Board determines the classification of its financial assets at initial recognition.

All financial assets are recognized initially at fair value plus, in the case of assets not at fair value through profit or loss, directly attributable transaction costs.

The Board initially recognizes loans and receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognized initially on the trade date at which the Board becomes a party to the contractual provisions of the instrument.

The Board derecognizes a financial asset when the contractual rights to the cash flows from the asset expires, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset is transferred. Any interest in transferred financial assets that is created or retained by the Board is recognized as a separate asset or liability.

Financial assets and liabilities are offset and the net amount is presented in the statement of financial position when, and only when, the Board has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

The financial assets of the Board include cash and short term investments and trade and other receivables.

(a) Financial Assets at Fair Value through Profits or Loss

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with changes in fair value recognized in finance income or finance expense in the statement of comprehensive income.

(b) Loans & Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is

included in finance income in the statement of comprehensive income. The losses arising from impairment are recognized in the statement of comprehensive income in finance costs.

Loans and receivables comprise trade receivables, employee loans, deposits, advances, other receivables and cash and cash equivalents.

(c) Held-to-Maturity Investments (HTM)

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held-to-maturity when the Board has the positive intention and ability to hold them to maturity. After initial measurement, held-to maturity investments are measured at amortized cost using the effective interest rate (EIR) method, less impairment. The EIR amortization is included in finance income in the statement of comprehensive income. The losses arising from impairment are recognized in the statement of comprehensive income in financial costs.

Investments in government securities and in fixed deposits have been classified under HTM investments.

(d) Available-for-Sale Financial Investment

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for sale or are not classified in any of the above categories of financial assets. Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses are recognized in other comprehensive income and presented in the fair value reserved in funds and reserves. Interest income on available-for-sale debt securities is calculated using the effective interest rate method (EIR) and is recognized in profit or loss. When an investment is derecognized, the gain or loss accumulated in funds and reserves reclassified to profit or loss.

The board has not designated any financial asset upon initial recognition as available-for sale investment.

2.4.1 Impairment Of Financial Assets

The board assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired and if such impairment has occurred, that amount of impairment is calculated by taking the difference between the assets carrying amount and the present value of estimated future cash flow.

3 Liabilities and Provisions

Liabilities classified as current liabilities on the statement of financial position are those which fall due for payment on demand or within one year from the reporting date. Non-current liabilities are those balances that fall due for payment after one year from the reporting date.

All known liabilities have been accounted for in preparing these financial statements. Provisions and liabilities are recognized when the Board has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation.

3.1 Retirement Benefits

A Provision has been made for retiring gratuities from the completion of the first year of service for all permanent employees in conformity with Sri Lanka Accounting Standard 19 Retirement Benefits costs. However, according to the Payment of Gratuity Act No.12 of 1983 the liability to an employee arises only on completion of five years of continued service. The liability is not externally funded.

3.2 Capital Commitments and Contingent Liabilities

Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefits is not probable or cannot be reliably measured.

Capital commitments and contingent liabilities of the Board are disclosed in the respective notes to the financial statements.

3.3 Liability of Fishermen's Pension Fund

Liability of Fishermen's Pension Scheme has been accounted in the financial statement at present value base on the actuarial calculation which was done in the year 2007.

4 Statement of Comprehensive Income

4.1 Revenue

- (a) The revenue of the scheme represents the income from Pension Premium, Interest Income from Treasury Bills and other miscellaneous income.
- (b) All income from collection of premier has been recognized on as cash basis.

4.2 Revenue Recognition

- (a) Pension premier revenue is recognized at the time of enrollment.
- (b) The above revenue is on cash basis and matched with the related expenditure.
- (c) Interest income is accrued on a time basis.

4.3 Accounting for Government Grants

Grants that compensate the Board for expenses incurred are recognized as revenue in the statement of comprehensive income in the same period in which the expenses are recognized. Grants that compensate the Board for the cost of an asset are recognized in the statement of comprehensive income on a systematic basis over the useful life of the related asset.

4.4 Expenditure

All expenditure incurred in the operation of the fishermen's pension insurance scheme activities and in maintaining the capital assets in state of efficiency has been charged to revenue on an accrual basis in arriving at the surplus or deficit for the year.

The indirect expenses of the board apportioned on the following rates by the Board Paper No.401/04. The rates are as follows;

Expenditure	Rates
Rent, Telephone	5%
Postage, Water Charges	5%
Electricity	5%
Head Office Equipment	5%
Main. Building	5%
Main M/V	3%
Fuel	2%
Stationery	2%
Uniform	2%
Security	5%
Computer Expenses	5%

5 Cash Flow Statement

The cash flow statement of the scheme has been presented using the indirect method, in accordance with the LKAS 7.

6. Events After the Reporting Date

The materiality of events occurring after the reporting date has been considered and appropriate adjustments, wherever necessary, have been made in the accounts.

7. Related Party Transactions

Famers Pension Scheme and the Agricultural Insurance Scheme are considered as related parties of Fisheries Pension Scheme. The transactions carried out with these related parties are been disclosed based on fair value. Fisheries Pension Scheme has granted a loan amounting to Rs. 518,000,000 to Farmers Pension Scheme.

8. Contingencies

Receivable Interest

The board has field a case in District Court Colombo, against the Bank of Ceylon for the loss of interest on investment on treasury bills in 1996.

The details as follows.

Case No	Amount (Rs)
MR 21843	1,454,670.84
MR 21844	1,172,602.46
MR 21845	2,784,657.55

The Appeal was dismissed with costs.

My No: AGL/E/AAIB/01/19/15

Date: 28th August 2020

Chairman
Agricultural and Agrarian Insurance Board

Auditor General's report in terms of Section 12 of the National Audit Act No.19 of 2018 on the financial statements and other legal and regulatory requirements for the year ended 31 March 2019 of Agricultural and Agrarian Insurance Scheme

The above report is sent herewith.

.....
W.P.C. Wickremaratne
Auditor General

Copies : (1) Secretary- Ministry of Agriculture, Rural Economic Affairs, Livestock Development, Irrigation and Aquatic Resources Development

(2) Secretary- Ministry of Finance & Media

Chairman
Agricultural and Agrarian Insurance Board

Auditor General's report in terms of Section 12 of the National Audit Act No.19 of 2018 on the financial statements and other legal and regulatory requirements for the year ended 31 March 2019 of Agricultural and Agrarian Insurance Scheme

1. Financial Statements

1.1 Opinion

The audit of the financial statement of Agricultural and Agrarian Insurance Board for the year ended 31 December 2019 comprising the statement of financial position as at 31 December 2019 and the statement of comprehensive income, statement of changes in equity and cash flow statement for the year then ended and a summary of significant accounting policies and other explanatory information, was carried out under my direction in pursuance of provisions in Article 154(1) of the Constitution of the Democratic Socialist Republic of Sri Lanka read in conjunction with provisions of the National Audit Act, No. 19 of 2018 and Finance Act No.38 of 1971. My comments and observations which I consider should be reported to Parliament appear in this report.

In my opinion, except for the effects of the matters described in the basis for qualified opinion of my report, the accompanying financial statements give a true and fair view of the financial position of the Scheme as at 31 December 2019, and its financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

1.2 Basis for the qualified opinion

- (a) According to paragraph 59 of Sri Lanka Accounting Standards 37, although active contributor identification and actuarial assessment should be carried out periodically, but without doing so, an allocation of Rs.19,016,134 for the Farmers' Death Gratuity Fund as at 31 December 2019 has been mentioned in the financial statements.
- (b) The value of 76.6 perches of land belonging to the official quarters scheme maintained in Mahiyanganaya, Embilipitiya and Anuradhapura districts had not been assessed and taken into account. Also, the value of the buildings at the Embilipitiya official residence, which was leased out by the National Housing Development Authority in 1986, had not been assessed and accounted.

I conducted my audit in accordance with Sri Lanka Auditing Standards (SLAuSs). My responsibilities, under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

1.3 Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Public Sector Accounting Standards, and for such internal control as management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the ability to continue the scheme and disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the scheme's financial reporting process.

As per Section 16(1) of the National Audit Act No. 19 of 2018, the Board is required to maintain proper books and records of all its income, expenditure, assets and liabilities of the scheme, to enable annual and periodic financial statements to be prepared.

1.4 Auditor's Responsibility in Auditing Financial Statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Sri Lanka Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Sri Lanka Auditing Standards, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the scheme's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of the Management’s use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the scheme’s ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor’s report. However, future events or conditions may cause to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I have communicated with those charged with governance regarding the significant audit findings, including any significant deficiencies in internal control that I have identified during the audit.

2. Report on other legal and regulatory requirements

Special provisions are included in respect of the following requirements in the National Audit Act No. 19 of 2018.

- In terms of the requirements of section 12 (a) of the National Audit Act No. 19 of 2018, except for the effects of the matters described in the section on the ‘Basis for the Audit Opinion’ of this report, I obtained all information and explanations required for the audit and as far as it appears from my inspection, the scheme had maintained proper financial reports.
- In terms of the requirement indicated in Section 6(1)(d) (iii) of the National Audit Act No. 19 of 2018, the financial statements of the scheme presented are consistent with the preceding year.
- In terms of the requirement indicated in Section 6(1)(d) (iv) of the National Audit Act No. 19 of 2018, except for the observations indicated in paragraphs 1.2.1(a) and (b) of this report, the recommendations made by me in the previous year have been included in the submitted financial statements.

On the basis of the procedures followed and evidence obtained and being restricted within the material matters, nothing that warrants the making of the following statements did not come to my attention.

- In terms of the requirement of section 12 (d) of the National Audit Act No. 19 of 2018, whether any member of the governing body of the scheme has any interest, direct or otherwise, outside normal business status in any contract entered into by the scheme.
- In terms of the requirement of section 12 (d) of the National Audit Act No. 19 of 2018, whether the scheme has not complied with any applicable written law, or other general or special directions issued by the governing body of the scheme;

- In terms of the requirement of Section 12(f) of the National Audit Act No. 19 of 2018, whether the scheme has not performed according to its powers, functions and duties, except for the following observations.
- In terms of the requirement of Section 12(f) of the National Audit Act No. 19 of 2018, except for the following observations, whether the resources of the scheme had not been procured and utilized economically, efficiently and effectively within the time frames and in compliance with the applicable laws.

3. Other Audit Observations

- (a) The official quarter situated at Embilipitiya has been in idling for over 21 years without being repaired.
- (b) Although lands had been acquired by the respective divisional secretariats to construct district offices of Agricultural and Agrarian Insurance Board in the districts of Kandy, Ampara, Manampitiya and Mahawa without taking steps to construct buildings in those lands, the offices had been maintained in the rented out buildings for 2-12 years from the said date.
- (c) The Board had paid Rs.565,800 to the Land Reclamation and Development Corporation of Sri Lanka on 04 June 2008 for the construction Plan of an office building. Although the institution had been informed that the money could not be repaid, the amount paid due to the abandonment of the project was non-economic, but it was shown as a capital advance under current assets.
- (d) Employees' loans and advances remained from 5 to 25 years totaling Rs. 692,302 are being carried forward in the accounts without any timely recovery from the employee gratuity or guarantors.
- (e) Salary, salary advances and mixed debtor balances totaling Rs.708,347 which has to be reimbursed had been carried forward for a period of 5-15 years in the accounts without settling in the accounts.
- (f) It was planned to build a centralized agricultural information system through the Agriculture and Agrarian Insurance Board under the Digital Economic Strategy Development Project for Sri Lanka implemented by the Ministry of Agriculture. The pilot project was implemented to develop a database of farmer information based on Gampaha and Badulla districts, identify farm lands for Sri Lanka and computerize them. Although it was hoped to use the database prepared by the Department of Agrarian Development for the Gampaha District, the Board identified weaknesses in the inability of the database to be directly applied during the implementation of the project. Due to protests and financial difficulties caused by the Agricultural Research Officers, only 10,825 plots and 9,955 plots could be mapped out of 27,139 plots of 80,006 plots in 26 Agrarian Service Centers and 10 Agrarian Service Centers in the Gampaha and Badulla

districts respectively. It is observed that this project operated for only 07 months and stopped halfway. If this project is not implemented in the future, the expenditure of Rs. 9,610,720 that incurred for this project may be a futile expenditure.

- (g) Due to the delay in releasing imprest by the General Treasury for the payment of crop damage compensation to farmers who are insured under the free insurance, the payment of crop damage compensation for the 2017/2018 Maha and Compensation for crop damage in the 2018 Yala season was delayed for a year and was paid only in the 2019 Yala season. Also, compensation of Rs. 598,972,934 for 20,100 farmers who lost their crops for the 2018/2019 Maha season had been paid in February 2020, that was during the 2019/2020 Maha season. Thus some inefficiency was observed in the free insurance program. Field inspections in the Polonnaruwa, Anuradhapura and Kurunegala districts further revealed that farmers' trust in the Agriculture and Agrarian Insurance Board had been eroded due to non-receipt of timely compensation.
- (h) Although the Agriculture and Agrarian Insurance Board has entered into an agreement with the International Monetary Fund (IMF) affiliated to the World Bank to formulate and administer an insurance scheme based on indicators in 6 districts between May 05, 2016 and May 2019, During the 2018/2019 Maha season, it was implemented on trial basis in Vavuniya, Anuradhapura, Kilinochchi and Mullaitivu districts. Although it was hoped to introduce modern methods of damage assessment through the implementation of the index-based insurance scheme, compensation was calculated under this scheme only in the Vavuniya District.
- (i) Although the reinsurance value is Rs. 3,500,000,000 for the maximum insurance liability amount which is likely to be about Rs. 5,000,000,000 to provide free insurance for mandatory 06 crops for the period between 01st April 2018 to 31st March 2019 due to the incorrect application of the Central Bank Report the said insurance liability has been determined as Rs. 7,500,000,000 and the institution has entered in to a reinsurance liability of Rs.5,315,000,000. Thereby there was Rs. 675,000,000 had to be paid as reinsurance premium. Up to Rs. 2,185,000,000 / - from the damage value reported under the reinsurance Agreement is entitled to go for reinsurance after payment by the Agricultural Insurance Board. However, the total compensation recorded for 2018 Yala and 2018/19 Maha was only Rs. 1,016,824,823 and the Board was unable to obtain any compensation from the reinsurance. It was observed that if the total insurance liability value had been approximately assessed according to the previous damaged data, the amount paid to the foreign insurance the institution could have been reduced by Rs.473,032,000.

- (j) The total amount of compensation that could be recorded for the 2019 Yala season is Rs. 613 million from the Insurance Trust Fund for the first payment of Rs. 10,000 out of Rs. 1,284 million. According to the Reinsurance Agreement with the Insurance Trust Fund for the 2019 Yala Season, the Board had not yet taken action to recover the remaining Rs.312 million from the Insurance Trust Fund after the Rs. 359 million in liabilities had been removed.
- (k) Out of 421 approved staff posts at the end of the year under review, there were 139 vacancies in 19 staff grade posts, 98 non-staff posts and 22 junior grade posts. This shortage of officers was an impediment to the efficient and timely implementation of office and field duties in the Head Office and District Offices. As a result, the Board has recruited 13 Contract Officers and 48 Daily Allowed Training Officers to perform the role of Permanent Staff.

Auditor General's report in terms of Section 11 (1) of the National Audit Act No.19 of 2018 on the financial statements and other legal and regulatory requirements for the year ended 31 March 2019 of Farmers' Pension and Social Security Benefits Scheme

The above report is sent herewith.

.....
W.P.C. Wickremaratne
Auditor General

- Copies : 1. Secretary- Ministry of Agriculture, Rural Economic Affairs, Livestock Development, Irrigation and Aquatic Resources Development
2. Secretary- Ministry of Finance & Media

Auditor General's report in terms of Section 12 of the National Audit Act No.19 of 2018 on the financial statements and other legal and regulatory requirements for the year ended 31 March 2019 of Farmers' Pension and Social Security Benefits Scheme

1. Financial Statements

1.1 Qualified Opinion

The audit of the financial statements of the of Farmers' Pension and Social Security Benefit Scheme for the year ended 31 December 2019 comprising the statement of financial position as at 31 December 2019 and the statement of comprehensive income , statement of changes in equity and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, was carried out under my direction in pursuance of provisions in Article 154 (3) of the Constitution of the Democratic Socialist Republic of Sri Lanka read in conjunction with provisions of the National Audit Act No. 19 of 2018. My comments and observations which I consider should be tabled in Parliament appear in this report.

In my opinion, except for the effects of the matters described in the basis for qualified opinion of my report, the accompanying financial statements give a true and fair view of the financial position of the Scheme as at 31 December 2019, and its financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

1.2 Basis for the qualified opinion

(a) Non-compliance with Sri Lanka Accounting Standards

The actuarial assessment relating to the contribution for the pensions of the active contributors and farmer pensioners should be carried out in a timely manner in terms of Section 59 of the Standard 37. However, without carrying out such an actuarial assessment , the liability for the pensions as at 31 December 2019 had been shown as Rs. 70,252,869,112 in the financial statements.

(b) Going Concern of the Scheme

The net assets of the Board amounted to a negative balance of Rs. 74,347,975,129 as at the end of the year under review and the current liabilities had exceeded the current assets by a sum of Rs. 5,098,968,963. Further, pensions had been paid since 01 January 2014 in accordance with the directives published in the Gazette Extraordinary, No. 1853/49, dated 14 March 2014 relating to the Farmers' Pension and Social Security Benefit Scheme, but contributions had been recovered by following the method published in the Gazette, No. 452/12, dated 07 May 1987. Accordingly, the contribution of farmers for the years 2018 and 2019 totaled Rs. 24,552,961 and Rs. 21,495,773 respectively whereas the payment of pensions totaled Rs. 3,059,370,767 and Rs. 3,217,332,522 respectively. Due to increase in the payment of pensions, sums of Rs. 2,725,000,000 and Rs. 3,065,000,000 had been received from the Treasury in the years 2018 and

2019 respectively and the Scheme is in a situation where it cannot be maintained without contributions from the Treasury.

I conducted my audit in accordance with Sri Lanka Auditing Standards (SLAuSs). My responsibilities, under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

1.3 Responsibilities of management and those charged with governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Farmer's pension and social security benefit scheme's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intend to liquidate Farmer's pension and social security benefit scheme or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Farmer's pension and social security benefit scheme's financial reporting process.

As per Section 16(1) of the National Audit Act No. 19 of 2018, the scheme is required to maintain proper books and records of all its income, expenditure, assets and liabilities, to enable annual and periodic financial statements to be prepared of the scheme.

1.4 Auditor's responsibility of auditing the financial statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Sri Lanka Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Sri Lanka Auditing Standards, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I have communicated with those charged with governance regarding the significant audit findings, including any significant deficiencies in internal control that I have identified during the audit.

2. Report on other legal and regulatory requirements

Special provisions are included in respect of the following requirements in the National Audit Act No. 19 of 2018.

- In terms of the requirements of section 12 (a) of the National Audit Act No. 19 of 2018, except for the effects of the matters described in the section on the 'Basis for the Audit Opinion' of this report, I obtained all information and explanations required for the audit and as far as it appears from my inspection, the scheme had maintained proper financial reports.
- In terms of the requirement indicated in Section 6(1)(d) (iii) of the National Audit Act No. 19 of 2018, the financial statements of the scheme presented are consistent with the preceding year.

- In terms of the requirement indicated in Section 6(1)(d) (iv) of the National Audit Act No. 19 of 2018, except for the observations indicated in paragraphs 1.2 (a) and 1.2 (b) of this report, the recommendations made by me in the previous year have been included in the submitted financial statements.

On the basis of the procedures followed and evidence obtained and being restricted within the material matters, nothing that warrants the making of the following statements did not come to my attention.

- In terms of the requirement of section 12 (d) of the National Audit Act No. 19 of 2018, whether any member of the governing body of the scheme has any interest, direct or otherwise, outside normal business status in any contract entered into by the scheme.
- In terms of the requirement of section 12 (d) of the National Audit Act No. 19 of 2018, whether the Company has not complied with any applicable written law, or other general or special directions issued by the governing body of the scheme;

Reference to Laws, Rules Regulations etc.	Description
Farmers Pension And Social Security Benefit Scheme Act, No. 12 of 1987 (a) Section 04	The objectives of the Scheme included : to make a payment for the farmers engaged in farming who are not less than 18 years and not older than 59 years in case of a partial or permanent disablement, paying a death gratuity, and to pay a periodical pension upon completion of the age of 60. However, no member had been entitled to the Scheme during the period of 2012-2019.
(b) Sections 15 (2), (3)	Where any contributor has forfeited the benefits under the policy issued to him, it should be conveyed to the contributor through a notice. As a result of a contributor being deprived of the opportunity to get his policy validated due to the failure to send such notice, pensions had not been given to 1,863 persons aged 60 years who had submitted applications for pensions believing that they had been entitled to the pension scheme.
(c) Section 20	The Advisory Committee should comprise 12 members including 06 ex officio members and 06 nominated members. However, appointment of all the members had not been completed even by 06 December 2019. Hence , the Advisory Committee had not assembled during the year under review whereas the said Committee had last assembled on 03 November 2006. As such, the Advisory Committee had not held for a period of 03 years.

- In terms of the requirement of Section 12(f) of the National Audit Act No. 19 of 2018, whether the scheme has not performed according to its powers, functions and duties, except for the following observations.
- In terms of the requirement of Section 12(f) of the National Audit Act No. 19 of 2018, except for the following observations, whether the resources of the scheme had not been procured and utilized economically, efficiently and effectively within the time frames and in compliance with the applicable laws.

3. Other audit observations

- (a) Pensions should be paid to the members upon completion of 60 years of age in terms of the Farmers Pension And Social Security Benefit Scheme Act, No. 12 of 1987. Nevertheless, the institution had made payments since the date of computation of the pension. Hence, pensions totaling Rs. 584,359,397 remained in arrears with respect to 27,049 farmers relating to the period from April 2017 to 31 December 2019. Furthermore, due to financial difficulties, pensions totaling Rs. 3,033,329,200 payable to 90,573 farmers had not been paid during the period 2012-2013.
- (b) As of the end of the year 2012, there had been 959,254 active contributors to the scheme. Following the year 2012 however, information relating to those who left the scheme, became disabled, deceased, and removal due to defaulting on the installments, had not been maintained in an up-to-date manner. As such, it was not possible for the scheme to identify the number of active members at the end of the year under review, the contribution being added annually, and the accurate amount of pensions to be paid.
- (c) It was stated in the report of the Advisory Committee meeting held on 25 August 2015 that the information system should be updated by entering the bio-data of the farmer contributors subscribed to the new pension scheme that had become effective from January 2014. Accordingly, surveys had been conducted covering only 08 districts by spending a sum of Rs. 1,726,875. Due to failure of the Board to promptly conduct the survey on the other districts thereby updating the information system, the expenditure incurred thereon had become fruitless.
- (d) The committee of experts assembled on 01 July 2019 with a view to introducing a new pension scheme replacing the existing scheme. It was decided that the committee should be responsible for : preparation of computational reports relating to the 04 alternative proposals presented by the farmers' pension scheme, to submit the information relating to the implementation of the scheme selected out of the said 04 schemes to the committee of experts, to prepare detailed reports on those schemes and furnish to the Department of Treasury in the month of August thus obtaining approval thereon, and coordination. However, the scheme was not implemented even up to the end of the year under review.

- (e) According to the letter, dated 07 July 2015 relating to the payment of farmers' pensions issued by the Post Master General to the post masters and sub post masters belonging to the district accounting offices with a view to updating the unpaid pensions and particulars of the deceased pensioners, the post masters and sub post masters mentioned above should submit a monthly report on particulars relating to the pensioners whose pensions had not been paid, to the Agricultural and Agrarian Insurance Board through the email address given by the Board. However, due to failure of the district accounting offices in Matara and Colombo in doing so, sums ranging from Rs. 1,000,000-Rs. 1,700,000 and Rs. 100,000-Rs. 300,000 belonging to the offices in Matara and Colombo respectively remained being remitted throughout the year between the Agricultural and Agrarian Insurance Board and the district accounting offices.
- (f) No legal action had been taken with respect to 117 cheques relating to 03 bank accounts of the farmers' pension scheme valued at Rs. 1,179,624 and continued to exist since 1992 without being realized although deposited.

W.P.C. Wickremaratne

**Chairman
Agricultural and Agrarian Insurance Board**

The summary report of the Auditor General in terms of Section 11(1) of the National Audit Act No.19 of 2018 on the financial statements for the year ended 31 December 2019 of Fishermen's Pension and Social Security Benefit Scheme

The above report is submitted herewith.

W.P.C. Wickremaratne
Auditor General

Copies : (1) Secretary- Ministry of Agriculture, Rural Economic Affairs, Livestock Development, Irrigation and Aquatic Resources Development

(2) Secretary- Ministry of Finance & Media

**Chairman
Agricultural and Agrarian Insurance Board**

The summary report of the Auditor General in terms of Section 11(1) of the National Audit Act No.19 of 2018 on the financial statements for the year ended 31 December 2019 of Fishermen's Pension and Social Security Benefit Scheme

1. Financial statements

1.1 Qualified Opinion

The audit of the financial statements of the of Fishermen's Pension and Social Security Benefit Scheme for the year ended 31 December 2019 comprising the statement of financial position as at 31 December 2019 and the statement of comprehensive income , statement of changes in equity and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, was carried out under my direction in pursuance of provisions in Article 154 (3) of the Constitution of the Democratic Socialist Republic of Sri Lanka read in conjunction with provisions of the National Audit Act No. 19 of 2018. My comments and observations which I consider should be tabled in Parliament appear in this report.

In my opinion, except for the effects of the matters described in the basis for qualified opinion of my report, the accompanying financial statements give a true and fair view of the financial position of the Scheme as at 31 December 2019, and its financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

1.2 Basis for Qualified Opinion

(a) Non-compliance with Sri Lanka Accounting Standards

Although the actuarial assessment should be done for the pension liability of active contributors and fishermen pensioners in a timely manner in terms of Paragraph 59 of Sri Lanka Accounting Standards 37, it had not been done after the year 2007. Even though the provisions for pension liability related to the year 2007 was Rs.1,242,006,539, provisions for pension liability had been stated as Rs.3,915,569,738 in financial statements as at 31 December 2019 without doing such an actuarial assessment.

(b) Accounting deficiencies

Unpaid pensions totalling to Rs.3,685,792, entitled by 121 fishermen, who had requested pensions for the period starting from January 2011 to December 2016 had been removed from the payable account considering that the amount had been paid. Owing to this, the payable account had been understated by this amount

(c) Going Concern of the Scheme

The Pension Liability of the Scheme as at the closing date of the year under review was Rs.3,915,569 which was an increase of 9.04 per cent as against the previous year. Similarly, the negative status of the Accumulated Fund had increased up to Rs. 3,288,940,708, viz. 11.58 per cent than the previous year and as a result, it had an unfavourable effect on Going Concern status of the Scheme. Though this position could exacerbate further in the coming years, the Institution has not taken steps to restructure the scheme and to operate it with financial feasibility.

I conducted my audit in accordance with Sri Lanka Auditing Standards (SLAuSs). My responsibilities, under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

1.3 Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Board's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intend to liquidate the Board or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Board's financial reporting process.

As per Section 16(1) of the National Audit Act No. 19 of 2018, the Board is required to maintain proper books and records of all its income, expenditure, assets and liabilities, to enable annual and periodic financial statements to be prepared of the Scheme.

1.4 Auditor's responsibility of auditing the financial statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee

that an audit conducted in accordance with Sri Lanka Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Sri Lanka Auditing Standards, I exercise professional judgment and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I have communicated with those charged with governance regarding the significant audit findings, including any significant deficiencies in internal control that I have identified during the audit.

2 Report on other legal and regulatory requirements

Special provisions are included in respect of the following requirements in the National Audit Act No. 19 of 2018.

- In terms of the requirements of section 12 (a) of the National Audit Act No. 19 of 2018, except for the effects of the matters described in the section on the 'Basis for the Audit Opinion' of this

report, I obtained all information and explanations required for the audit and as far as it appears from my inspection, the scheme had maintained proper financial reports.

- In terms of the requirement indicated in Section 6(1)(d) (iii) of the National Audit Act No. 19 of 2018, the financial statements of the scheme presented are consistent with the preceding year.
- In terms of the requirement indicated in Section 6(1)(d) (iv) of the National Audit Act No. 19 of 2018, except for the observations indicated in paragraphs 1.2.1(a),(b) 1.2.2(b) and 1.2.3 (a), (b) of 1.2 of this report, the recommendations made by me in the previous year have been included in the submitted financial statements.

On the basis of the procedures followed and evidence obtained and being restricted within the material matters, nothing that warrants the making of the following statements did not come to my attention.

- In terms of the requirement of section 12 (d) of the National Audit Act No. 19 of 2018, whether any member of the governing body of the scheme has any interest, direct or otherwise, outside normal business status in any contract entered into by the scheme.
- In terms of the requirement of section 12 (d) of the National Audit Act No. 19 of 2018, whether the Company has not complied with any applicable written law, or other general or special directions issued by the governing body of the scheme;

Reference to Laws, Rules Regulations etc.	Description
Fishermen's Pension and Social Security Benefit Scheme Act, No. 23 of 1990 (i) Section 16	Prior to the cancellation of the membership of 72 members who had failed to pay installments by 31 December 2019, action had not been taken in terms of the Act to inform them of the cancellation. As a result, contributors had been deprived of the right to revalidate an invalidated policy. A sum of Rs. 1,293,842 had been paid as net installments and interest to contributors whose subscription had been cancelled.
(ii) Section 20	Even though all the members of the Advisory Committee of the Board had been appointed for the year 2019, no meeting had been conducted after 03 November 2016.

- In terms of the requirement of Section 12(f) of the National Audit Act No. 19 of 2018, whether the scheme has not performed according to its powers, functions and duties, except for the following observations.
- In terms of the requirement of Section 12(f) of the National Audit Act No. 19 of 2018, whether the resources of the scheme had not been procured and utilized economically, efficiently and effectively within the time frames and in compliance with the applicable laws.

3 Other Audit Observations

- (a) Even though it had been planned to procure contributions amounting to Rs.307,000 by recruiting 100 contributors during the year under review, not a single member had been recruited to the Scheme during the year under review and 96 contributors had been removed from the Scheme due to deaths, disabilities and non-payment of installments.
- (b) Even though the total contribution of the Scheme for the year under review was Rs. 340,189, a sum of Rs.64,668,352 had been paid from the Scheme exceeding the contribution received since the total pension payments were Rs. 63,346,699 and net instalment payments was Rs. 1,293,842 and death and disabilities benefit payments were Rs. 368,000.
- (c) Even though pensions should be paid from the date of completing the age of 60 years, pensions amounting to Rs.3,940,215 entitled by 129 fishermen had been accrued even by the end of the year under review as the Scheme had made payments from the date of its formation.

Audit Superintendent

Auditor General's Department,

Colombo

The replies for the Auditor General's report presented in terms of Section 12 of the National Audit Act No. 19 of 2018 on the financial statements for the year ended 31 December 2019 of the Agricultural and Agrarian Insurance Scheme are submitted herewith.

This has reference to the report of the Auditor General bearing No: AGL/E/AAIB/01/19/15 dated 11.06.2020 presented in respect of the Agricultural and Agrarian Insurance Scheme in terms of section 12 of the National Audit Act No. 19 of 2018 and forwarded to me.

The reply report prepared as regards the matters contained in the said report is submitted herewith.

However, we wish to inform you that we have paid our full attention to the matters contained in the relevant audit report and that measures will be taken to overcome such deficiencies.

Replies for the Report of the Auditor General presented in terms of section 12 of the National Audit Act No. 19 of 2018 on the financial statements of the Agricultural Insurance Scheme for the year ended 31 December 2019

1. Financial Statements

1.1 Opinion

1.2 Basis for the qualified opinion

- (a) The allocation for the payment of death and disability benefits of farmers is calculated by the Farmers' Pension Fund and credited to the Farmers' Death and Disability Gratuity Fund and details relevant thereto have been disclosed by Journal Notes No. 12. Since the Farmers' Pension Scheme is currently being operated without recruiting new contributors, an actuarial assessment has not been done and actuarial assessment is expected to be carried out with the restructuring of the pension scheme in the future.
- (b) Necessary work has been initiated in consultation with the District Deputy / Assistant Directors regarding the valuation of lands in Mahiyanganaya, Embilipitiya and Anuradhapura and the value of the Embilipitiya official quarters and action will be taken to finalize and estimate the valuation expeditiously and bring into accounts.

1.3 Responsibilities of Management and Those Charged with Governance for the Financial Statements

1.4 Auditor's responsibility of auditing the financial statements

2. Report on other legal and regulatory requirements

3. Other audit observations

- (a) Arrangements have been made to effect necessary repairs to the official quarters at Embilipitiya in the year 2021 and bring it to usable condition.
- (b) Since there was a problematic situation regarding the land in Kandy, necessary measures have been taken to have the land re-surveyed by the Department of Survey and proceed with relevant activities thereafter. Plans have been made to reexamine the lands acquired in the Ampara, Manampitiya and Maho areas and carry out future activities.
- (c) Plans are afoot to build the head office of the board within the next year and the Sri Lanka Land Reclamation and Development Corporation has undertaken to carry out the initial preparation and development of the land. It has been shown as a capital advance until the work is done.
- (d) Letters of demand have been sent to recover loan balances and interest of the retired / Resigned officers from the Board and If the payment is not made accordingly, legal action is to be constituted in due course. Further, the loan balances of many of these defaulted officers were recovered when they came to the Board to obtain the necessary documents to obtain the

Employees Provident Fund, and action is being taken to recover the loan balances of other officers through guarantors.

- (e) Action is being pursued to recover this balance of Rs. 708,347 receivable to the Board from various parties.
- (f) These projects have not been halted and it is expected to conduct this programme island-wide on the basis of the feasibility studies conducted in the Gampaha and Badulla districts. The project proposals needed for this purpose have already been submitted to the Ministry as of now.
- (g) Requests for funds have been made to the General Treasury for the payment of compensation expeditiously and no sooner the funds are received, action will be taken to release compensation to farmers. Except for compensation of farmers whose compensation was rejected in the Maha season of 2019/20, the payment of compensation for previous cultivation seasons have been completed by July 2020.
- (h) Compensation calculation has already commenced in Gampaha and Hambantota districts under the index based insurance scheme. Also, plans have hitherto not been made to issue farmer identity cards under the index based insurance scheme. Discussions are underway to issue a formal Farmer Identity Card in the future.
- (i) Reinsurance has been obtained as there was a high risk due to the climatic condition prevailed at the time and as there was a high risk when compared to past seasons under the same conditions. This reinsurance was based on a liability projected as per the insurance procedure. If damages were caused as expected, the reinsurance could have been used for indemnification. In obtaining this reinsurance facility it has been done through a tender board approved by the Cabinet of Ministers and a technical committee comprising experts in this field according to the insurance procedure and therefore this installment cannot be identified as a futile expenditure. Due to the inability to make a more accurate forecast of weather and causes of other damages which are beyond the control of the Board since damages were not reported as expected, the expected benefits of reinsurance did not materialize.
- (j) They have been informed in writing as well as orally on a number of occasions to grant insurance compensation due under the reinsurance for the 2019 Yala season and this has been discussed with the Treasury and the National Insurance Trust Fund. We have been informed that necessary steps will be taken in this regard in the future.
- (k) Steps are being taken to fill all these vacancies after the Parliamentary Elections and the approval of the Chairman of the Election Commission has been obtained to publish newspaper advertisements for the speedy recruitment of staff grade posts and arrangements are being made to publish newspaper advertisements regarding the vacancies.

The replies for the Auditor General's report presented in terms of Section 12 of the National Audit Act No. 19 of 2018 on the financial statements for the year ended 31 December 2019 of the Farmers' Pension and Social Security Benefit Scheme are submitted herewith.

1. Financial Statements

1.1 Qualified Opinion

1.2 Basis for the qualified opinion

(a) Non-compliance with Sri Lanka Accounting Standards

The liability for pensions has been brought to accounts based on the actuarial assessment carried out in the year 2007 with respect to the farmers pension scheme. As this pension scheme is not a self-financing scheme, it will be restructured in due course thereby properly assessing the liability.

Discussions are underway at present to obtain a fair contribution from the contributors through the improvement of pension scheme. It is thus expected that, in the future, a new pension scheme will be formulated in a more formal manner.

(b) Going Concern of the Scheme

Action had been taken to revise the farmers' pension scheme through the Gazette Extraordinary, No. 153/49, thus introducing a new pension scheme that could be maintained on a self-financing basis. Although the Farmers' Pension Fund showed a zero balance, action had been taken to obtain Treasury provisions for the payment of pensions. A report has already been submitted to the Treasury to establish the Fund in relation to the increased liability for pensions. It is expected to take necessary action once Treasury approval is received.

1.3 Responsibilities of management and those charged with governance for the Financial Statements

1.4 Auditor's responsibility of auditing the financial statements

1. Report on other legal and regulatory requirements

Reference to laws, rules and regulations

(a) Section 4

Although pensions had been paid in accordance with the Gazette Extraordinary relating to pensions to the eligible persons not younger than 18 years, the contribution payable under this Scheme was higher. As such, the Secretary to the Ministry of Finance was requested for instructions in that connection following the discussions held on the said matter. Accordingly, entitlement to the Scheme had to be delayed. In the wake of the changes in Government policies that took place in the year 2015, the Board was instructed to introduce a new farmers' pension scheme. Accordingly a new farmers' pension scheme was formulated and forwarded to the Ministry of Agriculture to be referred for the cabinet

approval. It was decided that the said scheme should be referred to a panel of experts to seek its advice. Since the introduction of a new farmers' and fishermen's pensionscheme has been proosed as per the manifesto "Vistas of Prosperity and Splendour" of the new Government that came into power in the year 2019, action is expected to enroll new subscribers to the farmers' and fishermen's pension scheme in future in line with the policy of the new government.

(b) Sections 15 (2) (3)

In case of contributors defaulting on 05 consecutive installments payable to the farmers' pension scheme, their entitlement to the scheme will be cancelled, and the farmers are apprised in in that connection at the time of their subscription. This is also clearly stated in the notebook given to them to record the installments and the certificate as well. As for the installments already paid by the farmers whose entitlement has been cancelled, action will be taken to reimburse such monies to them together with the interest when they turn 60 years of age.

(c) Section 20

It is expected to take action to appoint members for the Advisory Committee of the farmers' pension scheme and assemble the Committee with immediate effect.

2. Other Audit Observations

- (a) As more than 20,000 farmers remained in the waiting list for receiving pensions, necessary measures were taken to include them in the register of pensions to ensure prompt payment of pensions. As such, pensions could be paid to 20,503 farmers who were in the waiting list. Action is being taken to include the names in the pensions register at the time of entitling to the pension scheme thereby avoiding any arrears in the future. Action will be taken to pay the said arrears gradually in due course utilizing provision obtained from the Treasury. The pension in arrears have been shown in the financial statements as pensions payable and that will be removed at the time of payment.
- (b) Computerization of subsequent premiums has been commenced in order to identify the active members of the scheme. It is planned to continuously proceed with the computerization process of subsequent premiums in the future. At present, 03 apprentices have been assigned full-time to computerize the subsequent premiums. It is expected to further enhance the capacity of inputting such data. Action has been taken to update the information relating to the contributors who had left the scheme, become disabled, or been deceased.
- (c) A lesser number of farmers had furnished information with respect to the programme to update the contributors' information of the farmers' pension scheme, but action was taken to input the received information district wise, thus updating the system. As farmers had not furnished information for the survey contrary to the Board's expectation, the relevant targets could not be achieved. It is expected to follow a suitable methodology in due course to update such information.

- (d) The committee of experts appointed to introduce a new pension scheme for farmers and fishermen had decided that it would be suitable to formulate a pension scheme for the said communities under the investment rate of 9 per cent. It was further decided to find out methodologies to compute income for the scheme. It was primarily observed that the cultivation tax fund and the income from the Govisetha lottery could be made use of therefor. A new pension scheme for farmers is mentioned in the policy framework of the new Government – Vistas of Prosperity. As such, action will be taken in due course in line with that policy.
- (e) Action was taken to apprise the Post Master General on the observation made by the Auditor General that the district accounting offices had not complied with the letter, dated 07 July 2015 issued by the Post Master General relating to the returning of the unpaid pensions. Accordingly, it was instructed that : pensions should be paid within 06 working days during the 07th day and 15th day of each month; it is necessary to make sure that summaries of all the farmers' pensions, particulars of pensioners whom pensions had not been paid to and the balance monies should be handed over to the Agricultural and Agrarian Insurance Board prior to the 10th day of the ensuing month, and action should be taken to avoid delays pointed out by the Audit by apprising the district accountants in that connection.

The district accountants in Matara and Colombo have been apprised by now thus taking action to collect the unpaid pensions and registers with immediate effect.

- (f) Those balances continued to exist over a period of 15-25 years. Action had been taken in the year 2003 and all the balances that could be rectified had been corrected whilst the balances that could not be so traced were brought forward. The most probable reason to this is that receipts were issued twice for the same cheque. Having continuously found out in that connection at special meetings held at the audit committees and the Treasury, approval was sought from the Treasury. It is expected that, once the approval is received, such balances would be written off from the accounts.

Replying to the Auditor General’s report presented in terms of Section 12 of the National Audit Act No. 19 of 2018 on the financial statements of the Fishermen’s Pension and Social Security Benefit scheme for the year ended 31 December 2019.

1. Financial Statements

1.1 Qualified Opinion

1.2 Basis for Qualified Opinion

(a) Non-compliance with Sri Lanka Accounting Standards

The liability for pensions has been brought to accounts based on the actuarial assessment carried out in the year 2007 with respect to the fishermen’s pension scheme. As this pension scheme is not a self-financing scheme, it will be restructured in due course thereby properly assessing the liability.

Discussions are being held with the Ministry of Fisheries and the Board in relation to obtaining a fair contribution from the contributors to the pension by broadening the Pension Scheme. Accordingly, it is expected that a new Fishermen’s Pension Scheme can be formulated in a systematic manner in the future.

(d) Accounting Deficiencies

Necessary action has been taken to rectify the accounting error pointed out by the Audit.

In formulating the proposed new pension scheme, technical and internal controls required to overcome these errors are expected to be implemented.

(e) Going Concern of the Scheme

The panel of experts appointed for the introduction of a new pension scheme for the farming and fishing communities, had decided that it is appropriate to formulate a pension for the farmers and fishermen under the investment ratio of 9%. Further, it was decided to explore methods for computing income for these schemes. It was initially observed that cultivation tax fund and income from Govisetha Lottery can be used for this purpose.

Since a new farmers’ pension scheme has been introduced in the ‘Vistas of Prosperity and Splendour’ policy statement of the new government, action will be pursued in harmony with that policy.

1.3 Responsibilities of management and those charged with governance for the Financial Statements

1.4 Auditor’s responsibility of auditing the financial statements

2. Report on other legal and regulatory requirements Reference to laws, rules and regulations

(i) Section 16

At the time fishermen are enrolled to the scheme, they are informed that the subscription of contributors who fail to pay 10 consecutive premiums will be cancelled.

Further, such cancellation of subscription is conveyed by the Fisheries Department and the fishermen whose subscription is thus cancelled can subscribe again to the Fishermen's Pension Scheme as a new subscriber through the district offices of the Fisheries Department.

The Department of Fisheries, the Competent Authority in relation to the Fishermen's Pension Scheme has been notified to take relevant action to prevent the recurrence of issues pointed out in the audit query.

(ii) Section 20

Measures are expected to be taken to appoint members of the Advisory Committee on Fishermen's Pension and to hold a meeting of the Advisory Committee expeditiously.

3. Other audit observations

- (a) This Scheme is being implemented in partnership with the Department of Fisheries and the performance including the recruitment of members is carried out by the Department of Fisheries. It is expected to restructure this Scheme as a new Scheme with financial feasibility in future jointly with the Department of Fisheries and accordingly, it is expected to implement this Scheme in accordance with a more productive action plan.

At the time of recruiting contributors, they are informed that those who fail to duly pay installments would be removed from the scheme. Moreover, the payment of death gratuity and disability benefits in the event of death or disability has been included in the Scheme.

- (b) Since the Fishermen's Pension Scheme currently in force is a scheme without financial viability, new recruitments are not promoted. However, as farmers who have contributed to the scheme are entitled to pension upon reaching 60 years of age, there has been an increase in the amount paid as pension.

- (c) This situation has arisen due to the temporary suspension of the payment of pensions in arrears when making payments having inquired into the delays in paying pensions in arrears to fishermen of whom there had been lengthy delays in forwarding applications for farmers' pensions. Since inordinate delays were observed in applying for fishermen's pension in the war affected districts, action will be taken for the payment of pensions after getting the reasons for such delays confirmed through the relevant public officers including Grama Niladharis and Divisional Secretaries.
