Accounting of expenditure on the budgetary allocation for the year 2024, under development projects

In preparing the budget estimates up to the year 2023, the allocation for development projects was made under capital expenditure objects codes 2505, 2506 and 2509.

However, the non-accounting of the assets generated by these object codes under respective projects in the accounting system was identified as an issue in providing allocations under these expenditure codes.

As a solution to the above problem, the National Budget Department has made arrangements to allocate provisions to account the assets in accurate manner under the project cost in the budget estimate for the year 2024.

Accordingly, provisions allocated for the development projects under object codes 2505, 2506 and 2509 until the year 2023, have been allocated to the object codes classified under the Acquisition of Capital Assets in the Budget Estimates for the year 2024.

However, it has been noticed that some reporting entities have been encountering issues in accounting for the expenditure on the above mentioned object codes.

Under the above situation, the National Budget Department has agreed to adjust the allocations as necessary if the provisions allocated in the Budget Estimates are to be rectified in relation to the allocated capital expenditures in the 2024 budget estimate.

Therefore, you are kindly requested to make arrangements with the Department of National Budget to rectify the object codes in case where it is necessary.

W.A. Samarathna Upananda
Director General
