

Progress of Large Scale Development Projects and Programmes
as at 30th September 2018

Department of Project Management and Monitoring
Ministry of Youth Affairs, Project Management and Southern Development

Progress of Large Scale Development Projects and Programmes as at 30th September, 2018

This report contains progress of large scale development projects and programmes implemented by 41 line ministries (No Large Scale Development Projects in 3 line Ministries) using the financial and physical targets agreed by the Project Directors at the beginning of the financial year and actual progress as at 30th September 2018.

With the accelerated development efforts, in 2018 approximately 1387 development projects and programmes are being implemented in island wide and **492 out of 1387** are large scale investments (i.e. the total cost of each investment are equal or above Rs.500 million). These large scale investments include 440 Capital Budget projects and 52 off Budget projects.

These investments comprise 432 on-going projects and 60 annual programmes. (See *Table 1*)

| TEC Rs, Mn | Funding source | Project | Annual Programme | Total |
|--------------|----------------|------------|------------------|------------|
| 500-3000 | Foreign | 37 | 04 | 41 |
| | Local | 161 | 41 | 202 |
| 3000 - 5000 | Foreign | 18 | 00 | 18 |
| | Local | 28 | 03 | 31 |
| >5000 | Foreign | 130 | 00 | 130 |
| | Local | 58 | 12 | 70 |
| Total | | 432 | 60 | 492 |

Table 1

Approximately, 38% of these projects and programmes are implemented under the foreign financing and physical activities of 37 projects are already completed, but included in the Budget Estimates-2018 with financial allocations, only for the financial closure. *(please see the projects marked in Pink colour in the annex iv)*

Among these large scale projects, the Ministry of City Planning & Water Supply implements the most (63) followed by the Ministry of Health, Nutrition & Indigenous Medicine (47) and Ministry of Highways & Road Development (39). The number of projects under the perview of each line Ministry is listed in **annex i**.

Financial Performance

Total financial allocation for the implementation of these 492 development projects and programmes in 2018 is approximately Rs. 747 billion. By the end of 3rd quarter, it was targeted to spend around Rs. 525 billion for the implementation of these projects. However, statistics indicated that overall actual expenditure as at the end of particular period was Rs. 353billion, which is a 67 percent of the 3rd quarter target.

| Financial progress of the 1 st Quarter (%) | No. of Projects |
|---|-----------------|
| 0-25 | 157 |
| 26-50 | 67 |
| 51-75 | 69 |
| 76-99 | 80 |
| 100 and >100 | 119 |

Table 2

Accordingly, overall financial progress against the annual financial allocation of the development projects and programmes is recorded as 47 percent (annex i). The value of bills in hand was around 61,712 million in 25 out of 41 ministries (annex ii).

As per the expenditure records given by the line ministries, it has been noted that 199 projects (40 percent of total projects) have achieved over 75 percent of their quarterly financial targets. This includes the 119 projects that have exceeded the financial targets of the quarter (equal or more than 100%). However, progress of the considerable number of projects (224 out of 492) is below the 50% of the agreed quarterly targets. (See Table 2)

It is noted that inadequate financial allocations/imprest was caused for the low financial performance of some projects.

Physical Performance

As at the end of 3rd quarter 2018, 114 projects have physically completed their activities. In addition, 113 projects (22.96 percent of total projects) have also achieved 75 percent of their agreed quarterly targets. However, it is noted that 108 projects have achieved only 25% of the agreed 3rd quarter targets. Number of projects and programmes based on their actual performance against the expected achievement as at the end of 3rd quarter 2018, is as follows;

| Level of achievement against the target (%) | No. of Projects |
|---|-----------------|
| 0-25 | 108 |
| 26-50 | 59 |
| 51-75 | 98 |
| 76-99 | 113 |
| 100 and >100 | 114 |

Table 3

Our study shows that there are several reasons which were identified for the low financial and physical progress of projects and programmes such as delay in approvals, administration and management issues, scope changes, poor performance of the contractors, procurement delay, Land Acquisition issue etc...

(Please see annex iii)

Based on the current status, these development projects and programmes have categorized as follows. (See Table 4 and annex iv)

| Current status | Projects # | Color Code |
|---|------------|---|
| Implementation on schedule | 209 |  |
| Slightly behind schedule and delay can be recovered | 147 |  |
| Behind the schedule and intervention of other parties is needed to recover | 44 |  |
| Physically completed but Allocations are included in the budget estimate 2018 | 37 |  |
| Preliminary Stage (Still in Design, Procurement stages) | 52 |  |
| Halted | 03 |  |
